SECTION THREE - SIGNIFICANT SIGHTINGS

A Sighting is the discovery of significant Mexican Government activity on the Mexican side of the U.S.- Mexico border, which is not an encounter and may be of LEA interest.

1. MEXICAN MILITARY SIGHTINGS McALLEN / McALLEN STATION -

On 01/26/04, BPA observed three boats full of what appeared to be bundles of marijuana being moved up river just south of the Family Center grocery store in Roma, Texas. The first boat was a small aluminum boat. The other two were blue and yellow inflatable rafts. The boats appeared to have 800 to 1,000 lbs. in them. Some bundles were wrapped in black plastic and others were in white sugar sacks. On the Mexican side of the river there were three Mexican soldiers. The soldiers were not hidden from view and were observing the boats. They did not attempt to apprehend or stop the activity of the boats or the people with the boats. Eight males were bringing the boats across the river. There were two males pulling each boat. There was an additional person in the front and another in the back. The line of boats ultimately went back to the Mexican side of the river. BPA believes that a scout may have seen BPA vehicle parked in the area and alerted the people transporting the bundles. After the boats and people arrived at the Mexican side of the river, the Mexican soldiers got up and walked in the other direction. The boat and people pulling the boats came on to the bank of the river just forty yards away from the soldiers [REDACTED]

As the rest made their way up the bank, they proceeded to take cover behind the trees and brush in the area. All were armed with long rifles. On this date, [REDACTED]
