However, if such a person resides in the territory of the other Party, he or she shall be subject to the applicable laws of only that Party.

9. This Agreement shall not affect the provisions of the Vienna Convention on Diplomatic Relations of April 18, 1961, or of the Vienna Convention on Consular Relations of April 24, 1963.

Article 5

United States Benefits

The following provisions shall apply to the United States:

1. Where a person has completed at least six quarters of coverage under United States applicable laws, but does not have sufficient periods of coverage to satisfy the requirements for entitlement to benefits under United States applicable laws, the Agency of the United States shall take into account, for the purpose of establishing entitlement to benefits under this Article, periods of contribution which are credited under Mexican applicable laws and which do not coincide with periods of coverage

2. In determining eligibility for benefits under paragraph 1 of this Article, the Agency of the United States shall credit one quarter of coverage in each calendar year for every 13 weeks of contribution certified for that year by the Agency of Mexico; however, no quarter of coverage shall be credited for any calendar quarter already credited as a quarter of coverage under United States applicable laws. If the conversion described in the preceding sentence results in a remaining fraction of 13 weeks, the remainder shall be considered an additional quarter of coverage. The total number of quarters of coverage to be credited for a year shall not exceed four.
3. Where entitlement to a benefit under United States applicable laws is established according to the provisions of paragraph 1 of this Article, the Agency of the United States shall compute a pro rata Primary Insurance Amount in accordance with United States applicable laws based on (a) the person's average earnings credited exclusively under United States applicable laws and (b) the ratio of the duration of the person's periods of coverage completed under United States applicable laws to the duration of a coverage lifetime as determined in accordance with United States applicable laws. Benefits payable under United States applicable laws shall be based on the pro rata Primary Insurance Amount.
4. Entitlement to a benefit from the United States which results from paragraph 1 of this Article shall terminate with the acquisition of sufficient periods of coverage under United States applicable laws to establish entitlement to an equal or higher benefit without the need to invoke the provision of paragraph 1 of this Article.

Article 6 Mexican Benefits

The following provisions shall apply to Mexico:

1. If a person meets the requirements of Mexican applicable laws for entitlement to a benefit, the Agency of Mexico shall take into account only periods of contribution completed under Mexican applicable laws.
2. Where a person does not have sufficient coverage to establish entitlement to benefits under Mexican applicable laws, but has been covered under such laws at least 52 weeks, the Agency of Mexico shall take into account periods of coverage under

credit 13 weeks of contribution for every quarter of coverage certified by the Agency of the United States.

3. When it is not possible to determine the time when specific periods of coverage were completed under United States applicable laws, it shall be presumed that such periods do not coincide with periods of contribution completed under Mexican applicable laws.
4. Where entitlement to a benefit under Mexican applicable laws is established according to the provisions of paragraph 2 of this Article, the Agency of Mexico shall determine the amount payable by:
 - (a) determining the amount of the benefit to which the person would have been entitled if all the periods of coverage or contribution credited under the applicable laws of both Parties had been completed under Mexican applicable laws, considering only the person's contribution wage (*salario base de cotización*), as defined in the *Ley del Seguro Social* (Law of Social Security);
 - (b) multiplying the benefit amount derived in subparagraph (a) by the ratio of the periods of contribution completed under Mexican applicable laws to the periods required for establishing entitlement. This proportion will also apply to the guaranteed minimum pension.
5. When Mexican applicable laws require that a person be in receipt of a Mexican benefit at the time of death in order for survivors to qualify for survivors benefits, that condition shall be deemed to be fulfilled if the person was insured for or receiving a benefit under United States applicable laws, or had credit for at least one quarter of coverage under United States applicable laws during a period of twelve calendar quarters ending with the calendar quarter in which the insured event occurs according to Mexican applicable laws.
6. For purposes of determining whether the requirements of Mexican applicable laws for a retirement, early retirement for involuntary unemployment in old age (*cesantía en edad avanzada*), or old age benefit have been fulfilled, the Agency of Mexico shall take into account the amount of any benefit that is paid under United States applicable laws. In particular, for the purposes of this provision, the Agency of Mexico shall convert a benefit payable under United States applicable laws to an annuity regulated

7. For purposes of entitlement to an orphan pension under Mexican applicable laws, attendance at an educational institution in the United States shall be considered equivalent to attendance at an institution of the Mexican National Educational System. Such an educational institution may be either a school that provides elementary or secondary education (grade 12 or below) as determined under the laws of a state or other jurisdiction within the United States, or a post secondary educational institution approved by the United States Department of Homeland Security.
8. For the purposes of recency of coverage requirements under Mexican applicable laws, the Agency of Mexico shall consider insured status and periods of coverage credited under United States applicable laws.
9. For the purposes of determining entitlement to medical insurance for pensioners and their beneficiaries, only periods of contribution completed under Mexican applicable laws shall be credited.
