VIII. ADDITIONAL INFORMATION OR EXPLANATIONS. *(Indicate part of Report.)***III. NON-INVESTMENT INCOME****A. Filer's Non-Investment Income**

Yale University is instructed to limit my compensation to the maximum amount permitted. I noticed from the instructions that the amount paid by Yale on the W-2 form was \$805 above the 15% limitation. It is possible that they paid the extra amount in error. In any event, I donated to Yale University for its general and unrestricted use a sum well in excess of \$805 during the year.

VII. INVESTMENTS AND TRUSTS

I have not included my personal residence in Connecticut and its adjacent land; an apartment and caretaker's apartment and an olive grove in Italy held for vacation trips and not for investment or the production of income; a fishing camp in Maine held for vacation trips and not for investment or the production of income; land across the road from my residence in Connecticut held to protect my land and not for investment or the production of income; and additional land identical to this and adjacent to it.

Trusts #3, #4, and #5 in part VII and the retirement account described in VII # 50 did not distribute any income to me or to an immediate family member. Income was earned and not distributed.

In 1995 a family member and I established a Charitable Remainder Unitrust. The family member and I are 5.5% income beneficiaries during our lives, or 20 years, whichever is longer. The trustee is instructed to invest the money only in widely diversified mutual or money market funds. See part VII Trust #6.

IX. CERTIFICATION.

I certify that all information given above (including information pertaining to my spouse and minor or dependent children, if any) is accurate, true, and complete to the best of my knowledge and belief, and that any information not reported was withheld because it met applicable statutory provisions permitting non-disclosure.

I further certify that earned income from outside employment and honoraria and the acceptance of gifts which have been reported are in compliance with the provisions of 5 U.S.C. app. § 501 et. seq., 5 U.S.C. § 7353, and Judicial Conference regulations.

Re: Retirement benefits

Tenured members of the Faculty upon retirement may elect to continue teaching and other activities at the School on a part-time basis. In accordance with usual curricular processes retired professors may teach one half time or less. Faculty members electing to teach half time may offer up to one course in each semester of the academic year or, by arrangement with the Dean, two courses in one term followed by a term in which they offer no courses. The part-time privileges and responsibilities will continue without term, but subject to the standards for continuation applied to non-retired, tenured faculty members.

Retired faculty must take up a reduced teaching assignment within two years of the date of their retirement and may not interrupt their teaching for longer than two academic years without forfeiting their appointments. Retired faculty who elect to teach part-time will be designated as Professorial Lecturers. Appropriate compensation for part-time teaching is determined by the Dean.

After retirement faculty continue to receive various forms of support. The support may depend on whether the faculty member continues to teach.

Offices.

Upon retirement faculty members will leave the larger offices that they may occupy and will lose their position on the office seniority list, but will be provided other office space.

Secretarial

Retired faculty will continue to receive secretarial support, but at a reduced level. In general, Professorial Lecturers would receive half the usual allocation for full time faculty.

Leaves

Retired faculty who continue to teach can be granted triennial leave proportionate to the amount of teaching they are doing (e.g. A Professorial Lecturer who is teaching a course a semester could receive a semester triennial leave every three years. Pay for the leave would be equal to the amount that the faculty member would have received for teaching that

... leaves to professorial Lecturers are at the discretion of the dean with the approval of the Provost.

Retired faculty may "carry forward" their scheduled leaves from pre-retirement, but only as to the timing of the next leave due, which must conform to the stipulation above (e.g. A faculty member who had no leave for two years prior to retirement and who started teaching a course a semester after retirement would be eligible for a paid leave in the second semester of retirement, but the pay would be in the amount of the salary that would have been paid for teaching a course in that semester).

Summer Stipends

Retired faculty are not eligible for summer stipends.

Research Assistants

Retired faculty may receive the same type of research support as full time faculty. Requests for research assistants and travel must be submitted to the dean for approval. Other support requests - computers, duplicating, etc. - would be processed through existing administrative procedures with non-routine approval being referred to the dean. General support from the library and its staff will be available. Book purchase requests should be directed to the Librarian. 'All of these procedures are identical to those in place for full time faculty.

Salary

Salary will be negotiated individually with the dean, but as a general guideline Professorial Lecturers who teach a course each semester after retirement will receive one quarter of their pre-retirement salary. That salary will be reviewed annually and Professorial Lecturers will be eligible for increases. Increases will generally be limited to the University figure for tenured faculty.

University Benefits

General

University benefits hinge on whether the faculty member is "half time or more", which is defined precisely as 50% or more.

Retirement Contribution

The Law School will make contributions to retirement funds for Professorial Lecturers to the extent possible given the University's formula for completion of contributions to retirement funds. The operation of the formula can vary by individual, but it is highly likely that Law School faculty serving as Professorial Lecturers will have completed contributions to retirement funds prior to serving as Professorial Lecturers. For faculty who had fifteen years of service at Yale prior to July 1, 1993, contributions to retirement accounts at the regular annual formula will not cease before age 70.

Medical Benefits

Yale faculty with 30 years of service are eligible for post-retirement medical coverage comparable to that provided full time faculty. Faculty with less than 30 years of service receive a pro rata benefit based on years of service. The coverage, while comparable, is different as it is designed to take advantage of Medicare benefits. Faculty who are classified as 50% or more are eligible for the regular faculty health coverage.

Under current policy if a faculty member is classified as 50% or more, he or she is not eligible for retirement health coverage even if he or she meets the age and term of service requirements because Medicare regulations stipulate that anyone who is entitled to regular health benefits from their employer must receive that benefit rather than Medicare so retired faculty listed as 50% or more would be covered under the regular faculty medical plan.

Dental Insurance

There is no University contribution to the Dental Plan, but still the plan is available only to faculty who are half time or more.

Long-term Disability

Faculty classified as 50% or more are eligible for coverage under the University's long-term disability program. The benefits of that program terminate at age 70.

Flexible Benefits

The University requires that a faculty member be employed 50% or more to participate in the flexible benefits program.

Group Life Insurance

Faculty members may participate in the group life insurance plan if employed half time or more. If employed less than half time, the group life insurance can be converted to a whole life policy.

Benefits Dollars

Faculty working half time or more receive \$27 per month which can be applied to faculty paid benefits or accepted as taxable income.

Scholarship Plan for Sons and Daughters

The benefit is available to all retired faculty who meet the length of service requirement -- six continuous years prior to receiving the benefit or four continuous years prior and eight years of total service.

Early retirement

For faculty who retire at age 62 or over with at least 15 years of service and before the "normal retirement age of 70" will be eligible to receive from the University a cash benefit. The benefit equals 60% of the participant's three year final average salary plus 2% for each year of service with the University over 15, or, if less, the amount that would be required to purchase an annuity that would bridge the difference between the annuity which could be purchased with the participant's Yale retirement account balance at the date of early retirement and the annuity which could be purchased with that account balance projected (at 4%) to "normal retirement age." For the purpose of the foregoing, amounts in the account balance in excess of six times salary will be excluded for the calculations.
