**SUBJECT: Retention of ABLE DANGER Records**

As you may be aware, ABLE DANGER is a matter of public and Defense Department interest. The Defense Department is looking into all allegations and may be called on sometime in the future to produce related documentation. Therefore, DIA personnel will ensure that no records related to ABLE DANGER are destroyed or deleted. This includes records of any kind -- e-mail, spreadsheets, documents, notes, or backup media -- having to do with ABLE DANGER or any nodal analysis projects conducted during the 1999-2001 timeframe relating to Al Qaida, terrorist organizations, or any matters related to the foregoing.
