Hi Beverly,

I know that you are out today, however I wanted to get on our calendar for tomorrow to discuss the agreement for Dr. Betances' services for our in-house Cultural Transformation traioning in Memphis. We are planning for the last Wednesday in July, and I know that you will be out for about two weeks in mid-July, so I need to get the ball rolling.

I gathered the attached docuemtns from Sue Bernstein for the agreement that you worked with her on for AMS's event on June 28, however I noticed that his price was \$7600, inclusive, but he charged for the business class airfare later. Do you have the final cost for his services? I am asking because when I contacted his assistant for a quote, I was quoted \$9000, inclusive. Did you "ride" on the APHIS contract or was this one a stand-alone agreement? I am asking, because we may have to "ride" on the APHIS or AMS agreement to get the lower rate.

I am also waiting on a response from Shawn to clarify if the \$9K quote includes the travel. My definition of inclusive is that it is just that, "inclusive".

Thanks and talk to you soon.
