## JW's Blockbuster Documentary Movie District of Corruption to be Broadcast on Nationwide Television

Beginning on Monday June 17th, at 8pm ET, Judicial Watch's hard-hitting documentary *District of Corruption* will have its national television broadcast premiere on AXS TV which is available on many cable and satellite providers. And several additional broadcasts will follow the initial premiere.

*District of Corruption*, directed by Stephen K. Bannon, lays bare the lawless and unconstitutional Obama administration; makes the case for more openness, integrity and honesty in government; and leads the way for changing the climate of corruption that has gripped Washington, D.C. for far too long.
