Subject: Hurry

Up, Hurry Up and Wait

As you know, we

have had numerous staff over at 1111 to review the docs requested by Camp be fore we make them available. At this point, they have gone through a significant chunk with more to go. As far as I know, no one from the Hill has shown up to look at a them. In the meantime, we are unable to move the c4 inventory because all the folks who are helping with that are tied up in the review. So, I plan to cut back on the number of folks involved in the review. At this point, I think 2 a day makes sense. As they now have worked with Judy/Joe for awhile, I no longer believe we need Judy to oversee, and I need her back on the c4 staff as she is a major player on that both in the area of Determs and Exam. Let me know if there is heartburn around this. Thanks
