Dave,
I don't know what happened, but that is correct. The new time for the guard contract site visit is 10:30, Feb 1.

Good afternoon Neil and Dave,

I have no visibility on this. What date and what time are they supposed to be coming? We have a 1000 move and this is not on any schedule or historical email. Realizing the importance of this, I want to nail down that Wash DC has planned a meeting at 1030 today for the LGF contract with three participants noted below?

R,
Dave

Subject: LGF Site Visit Schedule

Hey David,

One of the three participants for tomorrow's site visit has had a flight delay and now won't arrive in Benghazi until 930 am tomorrow morning. In an effort to accommodate his delayed arrival, I've informed the other participants that the visit will now begin at 1030 am in lieu of 1000 am. I tried tracking down your number to run this by you over the phone but had no such luck. Hope this doesn't create any schedule conflicts on your end. Below are the registered attendees:

Atlas - Mr. [redacted]
Torres - Mr. [redacted]
Blue Mountain - [redacted]
