ALL FEI INFORMATION CONTAINED HEREIN IS UNCLASSIFIED DATE 01-12-2017 BY J76J18T80 NSICO

U.S. Department of Justice

Federal Bureau of Investigation

Washington, D.C. 20535-0001

Date: 10 May 2016

- To: Priya Aiyer Acting General Counsel U.S. Department of the Treasury
- From: Peter Strzol Section Chief Counterespionage Section

Subject: Supplemental Classification Review and Determination Request

(U//FOUO) In July 2015, the FBI received a Section 811 referral from the Inspector General for the Intelligence Community (ICIG) regarding the possible compromise of classified national security information.

(U//FOUO) The potential compromise was identified when, as part of a Freedom of Information Act (FOIA) request, the U.S. Department of State (DoS) and the ICIG reviewed electronic mail (email) communications from private email accounts previously used by a former Secretary of State during her tenure at DoS. An initial review of this material identified emails containing national security information later determined by the US Intelligence Community (USIC) to be classified up to the Top Secret/Sensitive Compartmented Information level.

(U//FOUO) The FBI respectfully requests the U.S. Department of the Treasury (Treasury) conduct an official classification review and determination of the related documents contained on the accompanying DVD. This request is in addition to previous Classification Review and Requests submitted to your agency in October 2015, January 2016. While this request is separate from the previous requests, it should be responded to in similar manner.

UNCLASSIFIED / / FOUL

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency. (U//FOUO) The FBI understands you may also be reviewing materials as part of ongoing FOIA lawsuits involving some of these documents. This matter should remain separate from the FOIA matter(s) and information from this request should not be shared or co-mingled with the FOIA matter(s) to ensure the FBI's investigation is not compromised or adversely affected.

(U//FOUO) The FBI also understands that DOS may have previously received similar, separate requests from other entities for an official classification review and determination for some or all of the documents contained on the enclosed DVD. In order to ensure consistency, the FBI requests DOS de-conflict its response to this FBI request with any previous classification determination responses related to these documents, and to provide the FBI the same classification determinations. The FBI requests DOS to provide as soon as possible any previously rendered official classification determinations of documents related to this matter, to include any classification determinations of documents related to the @clintonemail.com domain that are not contained on the attached DVD. The FBI requests DOS to provide classification determination responses to the FBI on a rolling basis as they become available.

(U//FOUO) Similar to the FBI's previous requests, the enclosed DVDs contains a ReadMe.docx file, which provides an explanation of the files contained on the DVD. The DVDs also contain a Microsoft Excel spreadsheet titled Classification Review Response Tracker to assist your agency with tracking and responding to this classification review and determination request. The documents for review are listed in the FileList.xlsx spreadsheet and are contained in the Items folder. The Items folder is further explained in the aforementioned ReadMe.docx file. In the event DOS is aware of any equities belonging to other US Government agencies contained in documents provided as part of this request, the FBI requests DOS to identify those other US Government agencies in the "Notes" section of the enclosed spreadsheet.

(U//FOUG) The FBI may contact you in the future to ask you to prioritize the review of certain items provided as part of this request.

(U//FOUG) You are requested not to disclose the existence of this inquiry or the contents of the provided media, other than as necessary for compliance; disclosure may jeopardize the confidential nature of the FBI's investigation.

As you may know, the former Secretary of State has repeatedly stated that she will cooperate with your inquiry in whatever way she can. Accordingly, she would be happy to appear voluntarily to answer questions, if that would be helpful in achieving as expeditious a resolution as possible. She does have scheduling commitments, but I'm sure we can work around those.

Dear

On behalf of former Secretary of State Clinton, I want to reiterate our desire to facilitate the security inquiry we understand the Department is conducting at the behest of the Intelligence Community Inspector General into the storage of recently-classified emails at the hdr22@clintonemail.com address.

As you know, shortly after this inquiry was announced, we voluntarily provided a thumb drive (and copies) and the server equipment which supported this email account during the Secretary's tenure at the State Department. I also shared with you that the Secretary would voluntarily answer any questions you might have. Should you need to assess the successor server which for a time hosted this address and the successor hrod 17@clintonemail.com address, we also would be happy to assist you in that regard, consistent with maintaining the privacy of other e-mail accounts that are not part of your inquiry.

In short, we want to facilitate the efficiency of this security inquiry and look forward to learning from you if there are ways of which we can be of assistance.

Sincerely. David E Kendal

Dear Mr. Kendall,

We are in receipt of your letter dated September 21, 2015, which offers, among other things, access to what you have referred to as a "successor server" to the server equipment previously produced to the FBI on August 12, 2015. Based upon the FBI's investigation, we understand that this "successor server" is in the custody of, and is being operated by, Platte River Networks and that it, at least for some time, contained emails to or from Secretary Clinton's @clintonemail.com account.

We are concerned that, notwithstanding your repeated statements in oral and written correspondence regarding your and your client's willingness to cooperate in this matter, you had not raised the existence of the "successor server" or offered access to it prior to your September 21 letter. We remind you that this server is covered by the preservation letters delivered to Williams & Connolly LLP on July 31, 2015, and Platte River Networks on July 30, 2015, and we request that you ensure that this server remain operational with a continuous power source (i.e., that it is not unplugged or its operation otherwise interrupted) until further notice.

We also reiterate that the aforementioned preservation letters cover any other equipment or devices, whether or not previously disclosed, that contain or contained emails to or from the domain account @clintonemail.com, including all equipment related to the server voluntarily produced to the FBI on August 12; the "successor server" and all related equipment; any other server and all related equipment that received or sent emails for this domain account; and all backup devices, including backup hardware purchased from or maintained by Datto, Inc. While we will seek to proceed in a manner that causes the least amount of disruption to otherwise unrelated accounts and activities, we will take all necessary and appropriate steps to obtain any and all such equipment and items.

Sincerely,

Dear Mr. Kendall,

This letter confirms receipt of two letters you sent me on September 25, 2015. Regarding your letter providing a list of individuals and entities with whom Secretary Clinton may have communicated in a privileged context, when deemed necessary we will be using a filter process to account for the possibility that records may contain privileged information. During the filter process, we will determine what privileges may apply and how best to identify privileged information, utilizing as appropriate the list of individuals and entities you provided.

Dear

Pursuant to our conversation on September 29, 2015, this letter provides the Department of Justice consent to access the back-up files associated with Ms. Huma Abedin's email account for the purpose of your security inquiry.

We request that the historical email content from Ms. Abedin's account dated February 2, 2013 to the present be migrated to the new server and associated equipment acquired by Platte River Nerworks in conjunction with your inquiry.

Thank you for your consideration.

Very cruly yours,

Dear Mr. Kendall,

This letter confirms receipt of two letters you sent me on October 1, 2015. Regarding your letter providing a list of individuals and entities with whom Secretary Clinton may have communicated in a privileged context, when deemed necessary we will be using a filter process to account for the possibility that records may contain privileged information. During the filter process, we will determine what privileges may apply and how best to identify privileged information, utilizing as appropriate the list of individuals and entities you provided.

Dear

As discussed, this letter supplements my September 25, 2015 letter to you concerning the back-up files of former Secretary Clinton, and gives the Department of Justice consent to search, for evidence relevant to your security inquiry, all content contained in those back-up files.

Further, we note that we provide this consent with the understanding that, as stated in your October 4, 2015 letter to______and me, all items voluntarily produced will be returned to the owners or disposed of consistent with FBI policies and procedures at the conclusion of the investigation.

Sincerely. David E. Kenhall

computer, Serial Number ("MacBook Air") (collectively, "laptops"), that belonged to Justin Cooper. We provided both laptops for the purposes of DOJ/FBI's investigation of Secretary Clinton's personal email accounts.

As agreed, at the time of their delivery the laptops contained Mr. Cooper's emails to and from Secretary Clinton during her tenure as Secretary of State extracted from his email files. The laptops also contained back-up copies of a Blackberry device (or devices) that we understood belonged to Secretary Clinton.

As you know we have since determined that a back-up copy of a Blackberry device that remained on each of the MacBook Pro and MacBook Air did not belong to Secretary Clinton. Those files were labeled as follows:

MacBook Pro, Item 4, filename HR BlackBerry Bold 9900.ipd

MacBook Air, Item 5, filename HR BlackBerry Bold 9900.ipd

As we have discussed, we ask that you (1) remove all copies (digital and hard copy) of these two files from any U.S. government review cycle and that they not be reviewed, (2) destroy or otherwise render them inaccessible, and (3) send written confirmation of the same. Thank you for your attention to this matter.

Dear Mr. Kendall and Ms. Turner:

As we have agreed, (1) today we are giving you certain data (hereinafter "retention data")¹ from Justin Cooper's Apple MacBook Air laptop and Apple MacBook Pro laptop that were provided to the FBI on September 24, 2015, and October 5, 2015, respectively, and (2) you will retain the retention data until such time that you reach an agreement with DOJ that the retention data no longer need be retained.

DOJ may request that you provide files from the retention data as part of the DOJ/FBI security inquiry of Secretary Clinton's personal email accounts. You have assumed responsibility for responding to any such future DOJ requests. We have made clear to DOJ that Mr. Cooper will not interpose any objection to DOJ possessing and reviewing files from the retention data that are responsive to such requests, and that Mr. Cooper has otherwise relinquished his ownership of and rights to the retention data.

Dear Ms. Wilkinson:

I am writing in response to your letter of January 12, 2016 in which you indicated your willingness to further discuss providing your client, Jake Sullivan, for a voluntary interview if the government was able to "clarify and define the scope and duration" of such an interview.

In an effort to provide such clarification, we can inform you that the subject areas to be covered during the interview would be: Mr. Sullivan's knowledge and understanding of the former Secretary's use of a private email system; his knowledge of email communications regarding sensitive or classified information sent to and/or forwarded to the former Secretary; and his knowledge of the handling and transmission of classified information during his tenure at the State Department. Although it is only an estimate, we anticipate that an interview of Mr. Sullivan would require approximately six hours.

If you would like to discuss making Mr. Sullivan available for a voluntary interview, please advise us as soon as possible.

As you know, pursuant to written agreements with you, Justin Cooper voluntarily provided the FBI with two laptop computers and certain other media, and Williams & Connolly is retaining certain other data that was previously in Mr. Cooper's possession. I write now to describe the status of hardware used to process data in connection with those productions and Williams & Connolly's retention of data.

Certain data was periodically saved to external drives in order to search for, isolate, and/or save data for production or retention. Kroll Inc. ("Kroll") has degaussed and shredded (using a thirdparty vendor called Shred It in Parsippany, New Jersey) all such external drives, except as follows: (1) drives containing retention data held by Williams & Connolly, (2) seven drives that were wiped and remain in WilmerhHale's possession pending direction from you on a final disposition. (Note, Kroll also degaussed and shredded (using the same vendor) the drive known as the "Seagate drive.")

Certain data was processed using standalone computers. At the conclusion of our work on this matter, all data was wiped from those drives, the drives were removed from their machines, and the drives were securely stored pending direction from you on a final disposition. WilmerHale is holding two of those drives, and Kroll is holding the remaining nine drives.

Please let me know if you have any questions.

Yours thily

This letter provides consent, in connection with the Department of Justice's investigation into the use of a private server by former Secretary of State Hillary Clinton, to search the Lenovo Yoga 2 Pro (Serial No. ______ (hereinafter "the Device") belonging to my client, Heather Samuelson, who is Secretary Clinton's attorney, pursuant to the terms described below. The Device is being provided to the Federal Bureau of Investigation ("FBI") solely for the purposes of this Department of Justice investigation, and for the Department's use in connection with the investigation. In voluntarily providing the Device, Heather Samuelson does not relinquish ownership or control over the Device, except for the FBI's limited investigative use as specified by this agreement. The FBI does not assert custody and control over the Device or its contents for any other purpose, including any requests made pursuant to the Freedom of Information Act, 5 U.S.C. § 552.

1) You have confirmed that the sole purposes of the search are: (1) to search for any .pst files, or .ost files, or compressed files containing .pst or .ost files, that were created by Platte River Networks ("PRN"), after June 1, 2014 and before February 1, 2015, in response to requests for former Secretary Clinton's e-mail from her tenure as Secretary of State, (hereinafter the "PRN Files"), including in an intact but deleted form; (2) to attempt to identify any e-mails from, or remnants of, the PRN Files that could potentially be present on the Device; (3) to identify any e-mails resident on the Device sent to or received from the following e-mail accounts: hdr22@clintonemail.com; hrod17@clintonemail.com; hr15@att.blackberry.net; and hr15@mycingular.blackberry.net (hereinafter the "Relevant Accounts"), for the period

of January 21, 2009 through February 1, 2013 (hereinafter the "Relevant Period"); and (4) to conduct a forensic analysis of the device to determine whether the Device was subject to intrusions or otherwise compromised.

- You have confirmed that Phase One of your search will proceed as follows:
 - a. Your Technical Team (to include FBI technical personnel only), will review the allocated space (*i.e.*, active files) of the Device to search only for the PRN Files. Neither the Technical Team nor anyone else will review during Phase One the content of any .pst files, or .ost files, or compressed files containing .pst or .ost files that can be identified as created before June 1, 2014 or after January 31, 2015.
 - b. The Technical Team will review any files identified pursuant to subsection 2(a) above to determine whether they contain e-mails sent to or received from the Relevant Accounts during the Relevant Period. The files that do not include such e-mails will not be subject to any further review by anyone for any purpose, unless they meet the criteria identified in Phase Two or for purposes of an intrusion analysis, both set forth below.
 - c. The PRN Files that include e-mails sent to, or received by, the Relevant Accounts during the Relevant Period will be provided to a Filter Team, which will be limited to two attorneys, one FBI agent, and one FBI analyst, none of whom are members of the investigative team.¹
 - d. The Filter Team will review the contents of any file they receive from the process described in subsection 2(c) to identify and remove: (1) any privileged material; and (2) any material they can determine is not an e-mail sent to, or received by, the Relevant Accounts during the Relevant Period.
 - e. You will notify us of the results of Phase One of the search before proceeding to Phase Two of the search.
 - f. You will proceed to Phase Two of your search only in the event that the PRN File containing approximately 62,000 emails from the former Secretary's clintonemail.com account is not identified in the allocated space of the Device.
- You have confirmed that Phase Two of your search will proceed as follows:
 - a. The Technical Team will search the Device, including the Device's unallocated space, to identify any e-mails, fragments of e-mails, files, or fragments of files:
 (1) that include e-mails sent to, or received by, the e-mail addresses hdr22@clintonemail.com and hrod17@clintonemail.com during the Relevant Period or for which the date that the e-mail was sent or received cannot be determined; and (2) that include e-mails sent to, or received by, the e-mail addresses hr1S@att.blackberry.net and hr15@mycingular.blackberry.net that

¹ Should there be an extremely large volume of materials located on the Device and provided to the Filter Team, we understand that the Department of Justice reserves the right to expand the number of Filter Team members in order to avoid significant delay in the review process. If such an expansion were necessary, the Department of Justice has agreed to inform us of this change.

can clearly be identified as having been sent to, or received by, those accounts during the Relevant Period.² Aside from the intrusion analysis described below, neither the Technical Team nor anyone else will search or review the Device for any other material or for any other purpose.

- b. The Technical Team will review the results of the foregoing searches for the purpose of removing any file or data that is not an e-mail or a fragment of an e-mail sent to, or received by, the Relevant Accounts during the Relevant Period. Aside from the intrusion analysis described below, such material will not be further reviewed by the Technical Team or anyone else for any other purpose.
- c. The remaining results of the search will be provided to the Filter Team, which will review those results to identify and remove: (1) any privileged material; (2) any material that, upon further review, is determined not to be an e-mail sent to, or received by, the Relevant Accounts during the Relevant Period; and (3) any material that, upon further review, is determined not to be a work-related e-mail sent to, or received by, the e-mail account hrod17@clintonemail.com. Aside from the intrusion analysis described below, such material will not be further reviewed by anyone for any purpose.
- 4) You have confirmed that you will also conduct a forensic analysis of the Device to determine whether the Device was subject to intrusions or otherwise compromised, without reviewing the content of any user created files, including .doc, .xls, .pdf, .jpeg, or e-mails not captured in the aforementioned searches.

As soon as the investigation is completed, and to the extent consistent with all FBI policies and applicable laws, including the Federal Records Act, the FBI will dispose of the Device and any printed or electronic materials resulting from your search. No part of this letter shall be read to imply the consent to retrieve from the Device any data other than the data described above or to conduct any search or review in any manner other than as described above.

Sincerely,

bite a M

Beth A. Wilkinson

If a large volume of e-mails from the hr15@att.blackberry.net and hr15@mycingular.blackberry.net accounts -- for which a send or receive date cannot clearly be determined -- are located, we understand that the Department of Justice reserves the right to discuss further with counsel any additional search efforts that could be undertaken to assess whether such e-mails were sent or received during the Relevant Period. The Department of Justice will not undertake any such search without prior discussions with counsel and an agreement with counsel as to the scope of, and procedures to be used during, that additional search.
