Subject: RE: Senator Charles Grassley calling ATF f FFL asking about ATF "coercing" them to cooperate...?

Was that confirmed it was someone from his office or could it have been someone saying they were from his office?

For whistleblowers interested in establishing communication with Senator Grassley regarding wrongdoing within federal agencies or misuse of public dollars please [click here](#).

Grassley's pursuit of accountability has crisscrossed virtually every federal agency, including calling attention to the FDA's approval of foreign-made medical devices to refereeing turf wars between federal agencies that compromise U.S. border security. The Iowa senator leaves no stone unturned to protect tax dollars, from cross-examining the tax-advantaged practices of non-profits and shutting down offshore tax shelters exploited by corporate elites
