Attachments: Final Draft Indictment Osorio-Arellanes.wpd

Last week Michelle Terwillger told Jesse that the investigator at SSP was working on it. He did not want Michelle to call because he was afraid of being killed by the cartels, who he believes are monitoring the phone into the intelligence unit. He reluctantly gave Michelle his email address. The plan is to make weekly contact with him. He has all the information that we have that would support the wire based upon the gun violations.

The draft indictment charging just Manuel Osorio-Arellanes and unnamed co-defendants is ready. Jesse has drafted the initial request for a PAW, but based upon an indictment that discloses all the suspects. We are waiting for the DNA matches in CODIS.

I am talking to Bersin momentarily, so would help to have some more info to give him on SSP.

Fox News quoting disgruntled Terry Family members. Reporter just flat out claims that murder weapon has been traced back to **ATF** which is wrong. Story ran locally, but was produced by Fox LA.
