DP Molly and I then spoke at length with Issa staff affer that (and per agreement in our meeting), explained that we expected we can send a written response to their letter with documents within a week, noting that the requests for documents relating to the pending criminal investigations will be very difficult. Basically, I said that while we it's unlikel we'd be in a position to give them everything they requested, we would give them everything that we could and would work with them to find ways to accommodate their information needs if at all possible. The conversation went well, ended on a positive note and they did not bring up a subpoena at all. Thirty minutes later, they called to say that the Chairman was learning toward a subpoena, but they couldn't provide an info about when or why.
