Matt: Thanks for your note-- on your Spring Break no less!

One other concern besides the two you note is that the Attachment 8 reveals how the Suspect Gun Data Base works as an investigative technique or method. Not as serious as the others, but it reveals [ATF] [ATF]

[ATF]
Of course, Attachment 11 is the case in which SA [ATF] proposed to walk guns himself. Thanks. PJC

Attachment 11 of Issa's letter is redacted reports from ATF case number 785115-10-0020. This was an operation that [ATF] was running. [ATF] got approval from ATF ASAC Needles to allow guns to go to the suspect. The USAO did not approve this investigation. The reports are not part of Fast and Furious (#785115-10-0004).

I finally had a chance to review all the attachments to Issa's April 20 letter (the one where he threatens to commence contempt proceedings). Because of sloppy redacting, the attachments:

[ATF] This second disclosure is a repeat of what Senator Grassley disclosed by attaching the same ROI to a letter previously.
