The preservation directive that ATF issued on April 13, 2011-- the one specifically issued in reference to HOGGR's review--does not mention Fast and Furious. If you don't think that all records and evidence...relating in any way to Project Gunrunner encompasses F&F, then there has been no directive to preserve documents from Fast and Furious between July and October of 2009.

I'm attaching the three preservation directives for your reference.
