Matt,

Here is our current draft of search terms. We intend to continue refining it, but I wanted to let you see it.

Chris seems to have some concerns about the briefing book you requested yesterday. Due to an ATF memorial service this morning, I have not been able to discuss those concerns with him, yet. (For the same reason, I have not yet been able to ascertain to status of the preservation directive.) Also Newell is still working on OCDETF reports.

I'm heading to USAO now. When you have a moment, I need to discuss another issue with you.

John
