Armando and Matt: do you want to take a look at Mikulski Question 53, it has to do with danger pay in Mexico for ATF and USMS? I'm okay with the answer.

All Just a reminder that we need to get the AG's draft Senate appropriations qfrs back to JMD by **cob tomorrow, Thursday, May 19**. Please cc: Eric on your responses. My email of Monday, below, assigns each qfr to an ODAG reviewer, but please let me know if you think any of them has been mis-assigned. Thanks to those of you who have already sent some of these back, and please let us know if you have any questions.

All

Please provide any edits to the attached qfrs to the Attorney General by **cob this Thursday, May 19**. There is always a very short deadline for approps qfrs, unfortunately, and DP Because the portfolios have shifted in ODAG recently, I'd very much appreciate it if you could also take a look at the assignments below and let me know ASAP if you think they have been mis-assigned. Please note that the numbering is a bit odd this time around; references below are to the numbering in parentheses at the start of the question. (Some numbers have also been skipped and will be sent later; I believe we will receive the rest of the qfrs soon.) Finally, as always, please cc: Eric on your responses so we can both keep track.

Thanks in advance,

Charlotte
