All,

Here are the relevant issues from today's LEC.

1. **Brownfield will be in town 6/21-6/22**

[ATF] will be in town the week of June 20<sup>th</sup>

*Does DOJ want to try and schedule a meeting with either during their visit? This may be a good opportunity to sell DOJ's programs/success.*

2. **CODEL Issa visit (6/24-6/26)---primarily interested in Fast and Furious. DOJ Snyder will manage the visit per the DCM. DCM wants a breakfast the morning of 6/25 to have an opportunity to brief Issa before other meetings. Other possible meetings to include Calderon (unlikely), Morales, Garcia Luna.**

3. **New arrivals to post should get armored car training in DC prior to arrival.**

4. **DCM stressed the importance of the witness protection program. Morales wants this program "badly" according to DCM.**

*DCM noted he is having coffee with Morales on Wednesday at 5pm if we have any issues for him to cover.*
