No concerns - not sure how we'll use her but if she's game to pitch in, that's great.

Taking Matt off and adding Judy + Mark. I think bringing back Mary G (only her, not a stranger) for a bit to help on ATF could be helpful. Faith, it seems to me she could help out with outreach to committee members in advance of Wed + Thurs. Any concerns?

Good to hear. I spoke to Ken Melson and Billy Hoover. They offered the services of their OLA shop to assist in whatever way we want. I suggest we take them up on their offer. Specifically, they offered to loan bodies to our OLA for the next week (or longer if we need). Are you guys okay with adding an additional body or two to assist as we get through the hearings? They said that Mary Rodriguez has worked with you guys before -- what about using her? Not sure why we wouldn't want to tap ATF-OLA as a resource, especially when we're all so stretched.

Told him our plans for next week -- he seems OK.
