Stuart, I've sent someone else to the hearing and stayed to work on the letter - all fine. The doc has been restructured per your guidance, but there are some problems with some of the edits - I have a call into Caroline and will send this to her separately. Just talked with Tracy - not clear that today's hearing will get much traction. Here is the current version, but I will keep working on it if that's OK. Thanks. FB

To see if you received our edits - and if so, where things stand. Know you will be tied up at the hearing, so it would great if this were squared away...
