**Subject:** Current Issa Draft

Faith - thanks again for putting this together. Attached are two documents that incorporate our thoughts - a new intro, which would completely replace the current **DP** and edits to the draft you circulated, which we put on top of OLC's edits. Please take a look, provide your thoughts and put together in single, hopefully near final document that we can have ready to go - with any changes necessitated by today's hearing. Let me know if you have any questions. Thanks.
