I have been asked to make certain the appropriate people at ATF are advised that the weapons seized as part of the Fast and Furious case, which have been subject to the request for delay of the Administrative Notice, are advised we intend to file these weapons as a civil forfeiture action. That is, a civil forfeiture complaint will be filed and Noticing will not be required. Please assist me by making certain this message gets to the correct unit at ATF.

I will also need your assistance to put this complaint together. I also would greatly appreciate a review of the work product before it is submitted to the senior staff at this office.

Thanks

Reid
