Subject: Here's the rough draft of the response to Chairman Smith's letter of 5/3/11 re F & F, per our conversation this morning

Per our conversation this am, here is the ATF draft with my redlines (there were some in the first few paras before changes were tracked, but nothing significant). As I mentioned, we'll need you to take the pen at this point to complete this because we in OLA don't have additional info. Thanks. FB
