- Yes, docs from ATF, DOJ; IG critique,

all '08, '09 - Time w/ all these docs -

prov instr. to dism org, leaders, &

not to go aft org straws

Did someone tell you that?

- prov copies, told to view, attended conferences

At any pt in Ph, talk to USAO, management

abt hurdles w/ straws, cases not pros,

historically - Xcalibur, dir. word in state of

- traffickers stopped @ border → hang jury

- hist<sup>of</sup> obstacles in Phoenix to successful prosecution

Ex 1 | BP, Jan 8 - we und. used for  
OCDEF funding process. Fam?

- I'm fam, yes.

Iterations find up chain?

- Yes, diff vers

Used for OCDEF pres?

- No, those have

who prep?

- I did some, not all. Don't know who else -

v. I find was page shorter. Once I sent,  
can't say who received.

Who to?

- Gillett

Don't know who did.

PR13 - "curr our strat..." Did you work on sent<sup>mis</sup> <sup>eye</sup>?

- I bet so.

Did you insert lang?

- I don't remember.

What does "allow..." mean?

- taken out of ATF order, maybe poor choice of words. Transfer of F/A prot by 2<sup>nd</sup> Amd. To step in req leg std, USAO said hadn't met. To imp we did disallow ~~cl~~ imply we did step in - most F/A laws on prohib. persons, w/o that cat, diff std needs to be met.

Until indict, can't do much, can't give FFL list, not like no-fly

Maybe "allow" poor choice, but to imply disallow imp we did intercede  
(San)

But if fishy can Q?

- we can investigate

ATF - ATF, 100K on F/A -

Apt. where reass susp?

- we did ask, int is LE tech. We did int susp at diff times, none revealed consp.

None admitted their acts, none got us to where wanted → org

- taking off org always goal - talk w/ USAO, we could take off straw, replaced

w/o us knowing - keep playing catch-up

- low sentences, not obl. to answer questions.

- he doesn't have to exp. funds

- obst. of not having tool, not seizing F/A,

- hard to prove w/cash from

- CIV, civil forfeiture - we knew these

people didn't supp purch → **ATF**

civil forfeiture. Diff. burdens of proof -

put on them to prove source of income.

Could ask where got \$, for guns?

- Some people wld say they sold car rec,

- excuses endless.

**ATF** buying lots - in Mex - 28 in Mex <sup>by</sup> <sub>sale</sub>

interruping  
Saying can't

**ATF**

It's poss DEA/FBI had info help to your inv?

- yes, if we knew then what know now, diff avenues of inv wld hv pursued

~~DEA~~

Time when they knew?

- DEA, J/F 2010 - their calls wld have been before that

- Also DEA ATF

- I think if we had known sooner, wld have prog. in diff. direction... or, sooner

At what point was that info knowable?

- DEA ATF
- FBI component
- Don't think all known at same time,

FBI emp. @ SF?

- Don't kn if has anything to do w/ contr.

Circ of deport?

- Been told they (DEA) attempted to conv. bros to coop, didnt think they were truthful, maybe polygraph failed, DEA dec. not to use

Poss to be PI by DEA/FBI?

- depends

Was ATF PI?

[ ATF colloquy ]

OK, for sake of arg, if PI, imp for you to know?

- Yes

What wld be mech for you to know?

- Cert. being @ SF great ex of working tog jointly, can walk down hall

- Creaful there, don't know if wld hv known

You were working dangerous matter - more info, heart of net earl?

- in perf world

Did DEA have helped more?

- easy to 2<sup>nd</sup> guess now, hindsight's 20/20, don't know right as to ask, dropped phones,

**ATF** Plaza boss/Mamfo?

**ATF**

I'm trying to ask about plaza boss

G: we're not going to talk abt

**ATF**

says trying to help

I ask to go off rec, ask not to do specifics

show ATF not only involved agency

they claim under main was just to flag specifics we say not out and

**Ex. 2** Emails from **ATF** to FFL

You recognize ind. on email chain?

- Yes

How freq. exch emails w/FFLs

- SGC only one, to my rec

- I think few inst I did is inc here - think this is gen

You sup HM, JM if they were

- Bel. was **ATF**

P. 3 - pretty deep in 1010 - call from **ATF** Aug 25, 2010 wants 20, only have 4. Wnt guidance to see if shld. You wrote back saying shld go for. Were you auth by your sup to instr. FFL to go through. Did Newell know?

- Not sure. Newell knew were coop. w/FFLs.

**ATF** w/ **ATF**, phone calls?

- Don't know content, knew they talked knew they'd call before **ATF** came in?

- Don't know spec

Dialogue w/ her abt FFL?

- Might be head's up.

I und **ATF** balked, meeting w/ Em?

- don't kn charac as balk

They do

- OK. Went, met w/ **ATF**, ~~clear~~ clear

not going to tell him how to run bus.

If lawful, can't tell him not. Told him what wld help us (call us, 4473s, receipts)

You don't recall telling them **ATF** to g fwd w/ trans uncomf?

**ATF**

**ATF**

- Yes

Who carries ball to OEO?

- I know from exp, internal person before OEO. Reas that Hurley or someone else in USAO rev → OEO

**Ex. 3** Wiretap Req. for Auth w/cover letter

Goes from y → New → MCM

- Beiso

Your und needed Mc auth to move fund

- Policy is need DAD app - since has changed
- Agency wld send to OEO the approval

This is Feb, before **ATF** → any kn of whether Mc ok?

- assume someone did. Someone @ DAD level has to auth to OEO

At this pt been there 2 mos

- Yes

Lots of detail, fair this is ev<sup>d</sup> everyone on same page?

- Yes, I'd say ev. aware

So to ext ev now 2<sup>nd</sup> guess, fair ev in you C-of-C in know?

- Yes

I someone thought too much, old shut down

- If ATF might wanted to shut old have, come to me, did not. Said keep going, try to get bigger array of charges
- If we did go after bigger array - \$ land, aiding & abet

In your exp. briefing execs - SK ft level?

- Doesn't

WT - gave you op to give great detail, true?

- was lots comm in this case, more than I have before

W/o wt, not more det?

- well, BP have techniques listed

But these hv lots detail?

- yes

Does each go through same <sup>process</sup> ~~form~~?

- yes, ~~renewal~~ doesn't need DAD auth  
b/c not new line

So mngt chain had lots opp to see what going on?

- flew to HR in March. More in this case than most

Disapp to you might not own.

- don't know if agree - being told good case, righteous

Mistakes made?

- promise just, intent pure, righteous goal  
- wanted to best w/what tasked to do

Mistakes you would do-over?

- don't think any w/ hindsight  
- maybe <sup>mir</sup> bris, goal quicker

## ATF

You rep to ASAC?

- Yes

And line agents in Grp 7 rep to you?

- Yes

Who app opening? <sup>an inv</sup>

- Any agent can open case at any time

How comm to you?

- They talk to you, make first report

So agent can open on own?

- Yes

Wht abt surv?

- They conduct. Need app for enforcement action.
- Spending, electronics, enforcement (arr, sw) need app
- Gen, lat to let them do inv

Is interdict EA?

- depends on how happens. If you knew in advance certain event on certain day, that's EA. Interdict trickier, hard to know/predict actions -

- eg. ATF  
me, Gillett on loop, didnt know w/ move, had to react

- Feb 2010

What do?

- took action, got Tucson inv. They went to house. ATF, wldn't know if left house

ATF

- correct.

ATF

ATF

Goes to Thono Odum.

- both sides of border. Members of nation can travel
- called BP - stop. woman on sup vel, confessed, 40-41 F/As
- Think Feb. 20

Ex. 4 - Newell/Gillett string - "SAC, I concur" earlier says take off b/f border

"Take guns off as soon as" - how aware of situation?

- one strategy - ATF - worked w/EPIC

ATF

ATF

bought. Monitored for 8 days. Went to stash house for week, → IZUZU

- always our strat not to let cross. Q was is nec be heading sou (export charge)

- wanted to make sure interdicted, but less than 100 miles from border

Judge to sign off?

- yes

USAO?

- yes, ct order, affidavit, reas exp of privacy  
- worked w/ USAO

As part of F<sub>2</sub>F -

ATF

ATF

- Consulted w/ USAO, They said cld retrieve, we looked & didn't find

Those are reasons not used?

- Yes

When last used?

- can't remember, maybe 60-90 days aft. Feb  
Apr/May?

- fair estimate

After weapons interdicted, you knew who purch?

- Yes, ATF

Why not arrest?

- Talked to USAO, decision was not enough  
ev - person smug made no statements,  
said she got dir from guy. Think says  
in here a guy named ATF

So after the init purch, could you fig out  
ATF role?

- No, that was goal, to figure out - clearly  
there were conversations. Don't think  
I can convey how much going on w/  
us knowing

- Clearly something transpired, trying to fig

who calling shots - not this female driver  
maybe not **ATF**, you might take him  
out & sequence goes on w/ someone else

Who app. int? Email sugg. Gillett inv?

- Cert - ASAC or SAC, USAO on whether  
have PC. To stop & take guns we view  
as reg ind. PC outside from what oth  
LE might think P/C ex. If drugs,  
P/C b/c exists. Guns tricky.

Not being contraband, us seizing is  
concern. Want buy-in from USA.

- If we were to seize guns... Richmond  
gun show, ATF accused of overstepping  
auth, taking guns w/o lawful auth.
- great concern that... not fair comp.  
betw. guns & drug.

Is that why USAO inv?

- yes, incident in Jan, we wanted  
to indict, USAO said no. If we  
went ahead anyway, real problem.

Email: customary for DAD McMahon notified?

- Yes, if significant interdiction

So ~~DA~~ McMahon only not. of signif?

- I guess whichever Newell dec - I can  
only speak to when SIR created b/c  
I created.

But App from Newell/Gillett, not McMahon?

- I can't speak to that... don't reme  
he was notified or connected, just  
I talked to Gillett.

You have no kn that McM app?

- no knowledge.

New/Gill app?

- The primary comm is at USAO - do we  
have enough?

Then you wld req @ ASAC level?

- moving so fast ... if don't know till hap, talk to ASAC - call to ASAC may just be, this is what go on, we're going to try
- w/o prior kn, lots of comm going on, SAC cld be in meeting

For Arrests → USAO?

- abs. There may be imp we just arrest. w/o USAO, we're going to unarrest in morning. USAO final say. We abs have to have buy in. whole series of bad events if started [not]

Who in c-of-c app arrests?

- if planned, we prepare a blue cover sheet, recd for prosecution. Spot for being approved. Point is someone app
- If more live time, response - charge by comp, call boss and tell what's going on, talking w/USAO
- By pt of USAO buy-in, kind of going to go fwd

So sep from ATF c-of-c, proc. beg w/USAO?

- yes

Agents have independent auth to cond. surv?

- yes

To end surv?

- Yes

Don't need to go up chain to end?

- No

Our und that F&F focused on straws your agent bel wld fac. guns → Mex. Did tactics include sitting on stash houses?

- Yes. w/ prox to Mexico ... pt is there's coud above straws. Sit @ stash house, see act to furth inv. ATF All but

imp to know what can guns in.

Who makes dec to stop sitting on stash house?

- no hard & fast answer. Maybe if act, diff from if no act for 8 hrs. If un couple w/WT, **ATF** totality of circ, if purch @ PFL, we only have cert res. Have to decide where expend.

Wld field agent cons?

- might. Might ask to transfer stash house to PFL

One acc is that SA watched stash houses and stopped. At what pt aware happening?

- don't know. Never phrased how is now. Maybe if see transfer, talked to USA, if guy trying to lose us, if risking vio for something not violation, ~~if~~
- if this one not panning out to clear vio. maybe next one will

And dec not panning out — w/USA?

- yes, even if didn't consult ev occ, if consistent w/sem trans, it's same premise

wld you consult w/ASAC or SAC re: dec to reallocate?

- depended on what SAC doing, what going on in fld, conv w/USAO
- no hard & fast rule bth than we always comm. w/somebody.
- <sup>w/white van</sup> greater good of what hoped to acc.

So sounds like realloc/redir of agents

happened over & over. Frustrating?

- at some pt requested add'l agents, had 5, we can only do what we can do. Phoenix is crazy, res. not consistent w/lawnt activity

- range of leave happens
- do best we can w/ what we've got

Ev. comm concerns?

- one of these BPs, says add'l res, ask for analyst for wt
- analyst we had didn't have software training

When?

- one of BPs ... rem vividly line of how many agents avail

Did you  
Get add'l?

- got some when wire active - <sup>maybe</sup> Apr/Mar
- GRET in May

Did arrival of agents change calculus w/r/t recall?

- Yes  $\frac{1}{2}$ , no. Still w/ trying to schedule. Tried 7 days a week. Better, prob not perfect. w/ so many straws, FFLs, stashes - diff straws could be buying @ diff FFLs same time

How many people under your supervision?

- At some pt, 17 agents, May - Aug (GRET)
- Couple stayed for indictments

Been told that during agents felt enough ev but told to stand down. Aware?

- heard as part of hearing

Not brought to attn during F $\frac{1}{2}$ F?

- no.

No conv. w/ agents and sup wanting to arrest/stop?

- Don't recall those conv, people coming to me
- After fact, heard that wanted to stop, but safety ... unmarked car, didn't want ATF to stop, wanted local to do. Her concern was no lights, vest, too much risk  $\rightarrow$  officer safety

Why not use lozant?

- we often did.

This incident?

- don't know why. Maybe not avail, maybe didn't resp. fast enough.

Oth incidents?

- only one I can remember

Concern w/ agents?

- no, **ATF** told me after fact. I thought wise dec. No one ev brought to my attn again

Did tactics include foregoing arr/interdicts where agents bel. legal aut?

- no...
- we seized over 200 guns in case
- when we comm w/ USAO... whether agent not in consult w/ USAO thought, don't know, didn't bring to me
- approx 278
- group as whole, 373 F/A in Grp 7
- know or believe this is more than oth SWB. From queries - more than other

Who is "we" w/ USAO

- **ATF** talked to Em daily, nights, weekends
- met talk to Emory
- Newell met w/ USA Burke
- mult levels of communication w/ USAO

Do you know if other agents cons. w/ Em?

- on this case... TB talking to Emory. Con agents, maybe per registers. Don't think oth agents had case dir. disc. w/ Emory.

Your und agents werent foregoing in order to facilitate larger

- no I don't thing ag in F&F foregoing, take act when leg auth to do so. We cons

w/USAO. Don't know if Plc grey area,  
but if USAO says don't have, hard  
to override as agent or supervisors

- twice turned down by mag. for search warrant
- if I hear enough we don't have Plc have to acc... my role is my role, they have their role as atlys/judges

Brief up chain?

- at some point frust w/ lack ab to seize F/As
- alluded to - met w/ civil side abt. civil forfeiture. Shifted burden.
- to best of my kn, no one else @ ATF doing this. was a resp.

Who raise w/

- met w/Newell, Gillett, Need
- when met w/ **ATF** civil side. I talked to Needles, he thought great idea. who done w/succ

Know if <sup>he</sup> took up chain?

- Don't know. Know historical difficulty, have gone state route. Gen sense of frustration, Newell aware, been there longest.

When raised, what came down?

- Corpus delicti issue. **ATF** memo/disc. w/USAO. Pos is if gun rec in Mex, can't use in ct. Believed req. element in straw purch, so even w/ confession, looking for something else. In this case, looking for bigger case - laundering has biggest sentences.
- Memo/position paper
- ~~mention~~

was real concern com? <sup>conc. abt. res</sup>

- don't know if that ex concern - was comm.

**ATF**

**ATF**

Where collected?

Does **ATF** have access?

Did **ATF** use <sup>system</sup> to call ATF?

- cert. don't think so

But if so wld be recorded?

- yes

At meeting w/ **ATF**, did you assure him weapons interd. before border?

- not to my rec.

Next interaction?

- don't know if I've had one. Can't remember one. Guess can't rule it out. Maybe if a fax went through

Never been back to store?

- No - he had an employee w/ associate, maybe money owed, gun taken

- wld have been on video, went to store for help to find - nothing to do w/ F&F

- had burglary, I think I went w/ **ATF** prob w/ alarm - he showed us.

When?

- Spring 2010. Don't think GRIT detail there.

- But not F&F

What abt. after ~~the~~ Terry death?

- I didn't talk to him after that.

You didn't go to store to talk abt how to deal?

- No

**ATF**?

- I know she talked to him often. I have no reas to think did or did not come up.

Did you talk to **ATF** abt how to deal?

- Think we sent out press rel.

How abt after CBS?

Generally don't you take ~~pre~~ precautions to protect CIs?

Not my @

Do you think qual to dec?

You do realize diff std in courtroom than in field?

- I don't know if true... we try to op lawfully

Diff betw. RD & PC?

- Don't know if agree. PC is PC, lawful or not. Don't think diff on street.

Pros has goal of guilt R/D

- ~~Do~~ Think we share

In field, we don't need R/D, corr?

- don't know

were you aware disag. betw. on interdict?

**ATF**

- no

Not aware of **ATF** crit of **ATF** - too quick to int?

- not aware of that

Rec LE techniques ones Recs susp to dev PC, or to learn what prohib pers in car, or otherwise convince person to

- That Q had couple

Techniques to interdict short of arrest & conviction?

- Maybe. Just b/c stop doesn't mean you can seize. If lawful, can tell us to go away

Unless purch illeg

- and that is ind burd we have to show

What level of susp - food stamps - RS

- you can quest various ppl various pt

- if we don't think will meet goal, &  
other techniques might be better  
But is it not case if pers on fs w/ 30lc  
is at least RS

- that'd be one tactic employed  
Agents hv told us that technique (dev.  
thru interview, etc) to get guns was a  
freq thing in other offices and in Ph  
before. **ATF** says only one time that  
unsucc. Wrong?

- No, I think over time straws gotten  
smarter.  
- Straws tell us going to desert to  
shoot. Another unemployed guy,  
no ammo, where'd you get the money -  
host of unsuccessful interviews

**ATF** says successful, that straws will  
give up

- I think used to be more acc. They've  
gotten more <sup>smart</sup> ~~succ~~, soph.  
So if we're told never had problem  
before - acc?

- No idea if that's acc.

How did ATF learn **ATF** in contact  
w/ DTOs?

- we susp he was highest in Ph,  
How early on ev **ATF** in comm w/ DTO?  
- hindsight 20/20 - DEA **ATF**  
@ time...

How first on radar?

- I think before I got there, someone  
took guns to his house

Tip from gun dealer?

- don't think so  
- don't think **ATF** bought guns so don't think  
was FFL

- DeA hit

Isn't that basis? OLC/DETF

- yes

So as early as Dec 09

- but that's hindsight - we susp. but don't think was provable at that pt

What abt **ATF** - as early as 09, guns in MX w/ ttc 14 days

- sounds abt right

And continual rec in MX?

- yep so

Does that meet PC?

- talked to USAO - need int PIC for each transaction. Can't transfer to next SP.

Doesn't matter that end up @ crime scene,

- talking to USAO, if he sells to non-pro pers, lawful. Non-pro can sell/transfer, not via. If sec pers →

Mex, can't transfer

But continual patt/intent? USAO said no?

- fact that someone buys & sells guns is PC?

But being prob. not only illegal thing - also intent?

- <sup>don't know if agree</sup> there are cases in 9th circ - conviction overturned, person pup. bought gun for non-proh, ~~not~~ conv. overruled

**ATF**

Convoos w/ **ATF** abt being prot from blame?

@ Agents?

- mult times a day, early, late, etc

Other agents?

- again, maybe re: documents, **ATF** but not near int. of **ATF**

wld conv abt P/C be at agent level?

How abt other agents in Grp??

How about Case Agents?

Fair to say USAO ext. involu w/CAgs?

Typical?

I was agent, on phone w/AUSA all time

If in F3, F acted inc. w/USA advice, what happen?

For example, if you had asked, AUSA said no

PC - wld jeep

- wld certainly jeep case, and I wld have  
trouble thinking we acted in good faith.

I wld have trouble thinking I vio the Const.

When you received advice/dir. from Hurley,

Fair to say

His exp?

- I think always F/A

How long?

Exp pros?

- yes

Do you know if CA disc seizures/strips w/  
ETI?

- of course. we did lots seizures - to my kn,  
consulted

If didn't concur you -

- well, may have disagreed, but if render  
legal opinion, <sup>to supersede</sup> ~~by~~ <sup>offices</sup> against what I  
and to be got

Rely on them

- we don't charge, schedule, etc. They  
do indictment

What happens if decline to indict?

- I und. historically had to get to State ct  
for fraud count, like insuff checks

Who made aware of history?

Newell, Gillett, Mac, ATF

Coordinate w/other LE agencies?

- ICE, DEA, CBP, Phoenix police, IRS  
Hurley consulted?

- I know he worked w/IRS on subpoenas  
for bank accts, Ag for **ATF** info

He was aware of FFL cooperation?

- present at both meetings we had

What other challenges?

- hurdle - roadside conv. w/AUSA, saying  
he doesn't have job, told not illegal

- that's when went to **ATF**, lower  
std

Even w/that USAO inv?

- yes - got forfeitures

Can you think of dec USAO not involved?

- not in this case. Not going to take  
ind. action when worked so long & hard  
together.

- I can't think of anything we did we  
didn't consult abt

Are there other legal constraints w/it up?

- one is notion we'd provide to FFL, no-sell  
list - that's not an option

- being a suspect doesn't take away  
your civil lib

- this notion we could have given  
FFL list - we don't have that  
authority

were there discussions w/ USAO at other  
points in nv - traffic stops?

- I know we talked abt using Ph/Glendale  
to protect investigation

- less susp than Impala/ATF vest

was concerted effort to have local LE do  
in-person type stops

- for sure, yeah - that's what we did

- when I say seized

Did Grp 7 make steps?

- seizures yes, don't know abt steps. We have unmarked cars - better practice to use marked cars

Protect ATF inv?

- part of consideration

Hypo - non-pro person buying gun - legal gun, right?

- yes

So as long as not pro-person, have right?

- yes - can't treat Barrett dif from others

So acc to non-pro person, didn't matter who/ID of that person, circumstances - didn't m.

- scenarios w/ unemployed - don't need to just funds

- non-pro pers → non-pro pers, not illegal

- being on **ATF** by itself not ill

How get info for PC?

- **ATF**

Could talk to person?

- Yeah, think that's been covered...

But not favored?

- Not fav by USAO b/c unsucc att

What other ways for PC?

- **ATF**

- be hard pressed to think of technique others we didn't try

- **ATF**

Disc w/ USAO?

- yes, discussed all these.

You mentioned each ind. transaction - elab?

- we have to have ind. PC for each purch

- cited sev examples

So # guns at time - factor?

- can't be only factor

You talked to USA abt?

- he gave ~~20~~s - say thought ass<sup>ant.</sup> weap  
ban coming back, it's not, can liquidate <sup>→</sup>  
doesn't make orig purch a straw <sub>end mt!</sub>

Do you recall instance contra. USAO advice?

- I can't think of one. Can think of debates.

Debates?

- huge gun, has to be mounted, - ind. had no emp, paid 13k in cash, said for shooting in desert
- we stopped, interviewed him, said saved his money - pt is we disagreed w/USA, but ult. sided with them that this not P/C

This is during F $\frac{1}{2}$ F?

- yes
- this was one thing prompted my going civil route - found alt. solution, diff std.

Became OZDETF case  $\rightarrow$  change USAO role?

- Yes & no. More oversight - approval process, interim/status reports.

who prepares?

- We prepare part, submit to USAO

Each rep inv both ATF/USAO?

- Yes, and then it goes back to OZDETF

Ever feel like F $\frac{1}{2}$ F too much dir. from F $\frac{1}{2}$ F?

- don't know if fair to say too much. Maybe

Their dir weighed heavier than our dir.

- They have historical baseline ... they

had dir verdicts - Xcal, confession -

wheth be 9<sup>m</sup> dir, pro-gun juries, for

what reason, USAO not as agg as pos.

- Note to say wrong, old be right,

but at end of day, can't get 20 indict

w/ them. If wanted sooner, nothing to do abt.

- I know mult meeting abt charging, got to rpt of SAC/Dennis saying we need these case w/conf → hung jury

- **ATF** - I think?

- **ATF** told me abt

Briefing in DC?

- March 15, 2010

- Hoover, Chait, McMahon,

**ATF**

**ATF** from DOJ.

Melson?

- No. Fair to say Hoover, exec level, there.

How long?

- Briefing abt other stuff too - briefing I part was 30-45 mins

You were providing?

- I think **ATF** started, w/ PPT, then got more spec. into our recoveries, guns, money, funding, going up on wire SURV

So did you say cutting surv @ stash house for FFLs?

Did you say # purch, rec, both?

- Both

Did you desc ind. purch?

- Did

IP spec individuals int?

- Don't know if did @ that pt or not.

So Ex. R - Apr. 2010?

- Yes

You didn't describe emails w/ FFLs?

- No

What Qs asked?

- financial component, trying to get @ bank accts

- seizures in MEX & US

- Seizures in MX, US, **ATF**
- **ATF** what we hoped to learn, how hoped to dismantle org.

Explain conversations w/USAO w/lt PC?

- don't know if had conv. abt P/C
- said were working w/USAO, no part rec of talk abt that

Asked why net not taken down?

- don't think - our strat was thought to be good one, well rec

Sounds like you sd needed **ATF**?

- **ATF** wld help us get @ people controlling net who might never touch gun.

Concerns abt # of guns?

Ex. 5 | **ATF** | Melson email

Think FFI had

Do you think FFIs' thought had

At some pt realized dealing w/ lots guns?

- kept ev. apprised of # of guns

At various pts - **ATF**, Chait - when going to shut down? when did that brew?

- No, I went up there in March - Chait didn't ask. Chait didn't email me, ask that a spec

- I think later, Aug, we said we got what we got, there was disc. when we will indict

- I remember ask Em, Need → Mar, New → Bulk timing of ind

Safe to say ATF Ph saying we have to stop

On whole case, I

A BP agent killed, had to arrest someone, so  
pt things in motion to get him - I'm pointing  
out

- residency checks are resource intense,  
we don't have resource.

- history → scrutiny brought, not std practice

I'm saying when needed to arrest **ATF**,

you did
