Subject: SA [ATF] Wood Pile

Hi Matt

[ATF] has told people that she has maintained her own file on the Fast and Furious case. Agents call such files "wood piles" or "oh sh*t" files. According to her, she has info that shows "the FBI has problems of its own." I raised some of this with you on the phone late last week. Will you please check with ATF and see that her file is part of the production. We are particularly interested in some of the information FBI provided to SA [ATF]. I can also follow up with her directly.
