I gathered from our discussion that IT searched only for emails with the words "Fast and Furious"; if so, that search was too narrow. We need to have IT search for ANY emails during the relevant time period to or from any of the following people:

Carlos Pascual
Ken Melson
William Hoover
William McMahon
Mark Chait
Dennis Burke

That will undoubtedly capture a bunch of unrelated stuff, but we can then go through it and identify what's relevant. Can you have them do that search? Thanks!
