Adding Melanie and Carmen. Is this the plan going forward or also going backward?

I spoke to Steve Castor and told him that, starting absolutely as quickly as we can, we would create a key of reasons for redactions (eg: 1 = Personal privacy) and that we would handwrite on the redacted documents the code for why redactions were made and also give them a copy of the key so he understood the codes.

Perhaps we can have a conversation where that explanation can be fleshed out a bit? I'm not sure what that means as described below.

Thanks, Tristan.

With respect to your questions about HOCR-ATF 1179-1181, the Exit Strategy:

With the exception of the redaction of text in the penultimate line on the first page, every single redaction in this document is a reference to a sensitive surveillance technique.

The redaction of text in the penultimate line on the first page is of sensitive information about an investigative target.

Thanks,  
Molly

Molly,

As you suggested, we have identified the instances where we would like to know the substance behind redactions. They follow individually, as per your request. As mentioned on the phone the other day, this doesn't need to include redacted phone numbers.

Thanks,  
Tristan
