Patrick ... how do these look?

When I added the additional detail (case ID and Lead attorney) I had to "refresh" the report. Apparently some change took places in the LIONS data since the first time I ran the report. The total for # 7 went from 113 to 111.

Importance: High

Jim: We are responding to a request to provide the number of "straw purchaser" cases indicted, charged by information or charged by complaint after October 1, 2010. Can you run two queries for us:

- A. Our query # 7, firearms felony cases charged, for the first 6 months of FY 2011 (October 1, 2010 thru March 31, 2011), and ask for **ONLY** cases in which 924 (a) (1) (a) is charged, and
- B. A case list with attorneys and case names for the Query # 7 you created below that showed 113 felony firearms cases charged, so that we may review case by case if we must.

Please let me know if you can run these today as time, as usual, is of the essence. Marian will assist in reviewing the data along with Shelley and me.

While you work, I will review our written summaries that attorneys sent to us in June. Thanks! PJC
