FYI, Cynthia called this AM to chide me (politely) for the paragraph in our response, below, which asks Issa to send the Melson transcript to OIG. She said it is important for OIG's independence that the Department not ask for information on OIG's behalf. She said they feel free to contact congressional committees to obtain information they need -- they don't need our help and are concerned about the appearance of us asking for something on their behalf. I told Cynthia we would be cognizant of that concern in the future.
