Subject: **ATF**

Here are proposed on the record responses on **ATF** Let me know if folks have edits –

What's the Department's response to reports that an Arizona man was allowed to transport grenade parts to Mexican cartels with the knowledge of law enforcement – including ATF and US Attorney's office in Arizona?

DP

Is it true that the **ATF operation contributed to the Department's decision to change the leadership at ATF and seek the resignation of USA Burke?**
