Subject: RE: Clinton's speech before Institute of Scrap Recycling Industries

I think the decision was a soft call to Clinton's attorney and the talk did not take place. You might want to send an email to Terry and tell her that you have a gap in your records because you were gone and wanted to know if the President ever did the talk before ISRI.

Subject: FW: Clinton's speech before Institute of Scrap Recycling Industries

As far as you know, was there ever a decision on the Clinton request involving scrap recycling? Below is the last e-mail I have on it - I assume it just died since I don't have an outgoing memo approving the event.

I agree, but that was in the hands of Jim and Cheryl Mills. They were to discuss with the Counsel to the former President. I do not know if either ever did.

Chip - Do you recall whether there was ever a decision on whether to say yes or no to this speaking engagement? I think this one and the one on Saban are still outstanding. Violanda
