

APR 14 2016

FOIA Case: 16-030

Sean Dunagan  
425 Third St. SW  
Suite 800  
Washington, DC 20024

Dear Mr. Dunagan:

This is a second response to your Centers for Disease Control (CDC) Freedom of Information Act (FOIA) request that was forwarded to the Indian Health Service and received on December 7, 2015. This is your CDC FOIA case 15-00001-LT. This is a FOIA request, in which you requested copies of documents pertaining to the recent influx of undocumented immigrants along the southern US border. This FOIA request was forwarded to our office for direct response and because it is standard practice when an agency is in possession of another federal agency's documents.

In review of your case, we previously mailed you our final FOIA response on December 21, 2015, however, we have received a more complete set of documents. We are releasing the complete set of documents which may include some of the documents you already received in the first response. The total pages are 42.

Enclosed are emails within this Agency's possession in response to your request. The CDC had provided us a copy of these emails for our release. We have reviewed the emails and we are releasing all the emails with no redactions.

Fees for processing your request are minimal and they have been waived. However, you may be charged for future requests.

If you have any questions or need further assistance, please contact Janet Ingersoll at (301) 443-6177.

Sincerely,

Carl G. Mitchell  
Acting Director, Division of Regulatory Affairs  
and Acting FOIA Officer

Enclosure

Leaders of RDF3 team:

I have responded to the request for deployment as directed with positive support by my immediate supervisor. However, I received the attached E-mail from IHS Headquarters just a few minutes ago. I have not gone above my immediate supervisor for authorization to deploy. Hopefully this information will help everyone in leadership roles to cross the communication bridge and allow support for our mission to deploy while still ensuring continuity of care for our remote and underserved populations.

**From:** Lincoln, Carol S (IHS/HQ)  
**Sent:** Tuesday, June 17, 2014 1:58 PM  
**To:** IHS Commissioned Corps All  
**Cc:** HQ Management Team; IHS Area Directors; HQOMS - Div of Commissioned Personnel Support  
**Subject:** Reminder - Deployment Process for IHS Officers

Commissioned Officers:

Over the past two weeks, many Indian Health Service (IHS) officers have been activated, placed on alert status, or deployed by the Readiness Division (formerly OFRD) of the Division of Commissioned Corps Personnel and Readiness (DCCPR) to support the U.S. Customs and Border Patrol in conducting health screenings and triage of unaccompanied minors in Nogales, AZ. As part of the Director's support and dedication to the mission of the Corps, the Agency has collaborated with the Office of the Surgeon General and DCCPR to develop a pre-deployment approval process that *must* be completed prior to any deployment of a Commissioned Officer assigned to IHS. This process was implemented to ensure continuity of care for the remote and underserved populations we serve, and to safeguard those populations whose public health is impacted by these deployments.

The process for Agency approval is as follows:

- Officers may be contacted individually by their Team Leads to gauge availability – this does NOT mean that you are approved to deploy
- DCCPR then collates responses from all Team Leads and sends one *formal* request for IHS officers to deploy

- This formal request from DCCPR is then routed through the Director, Division of Commissioned Personnel Support (DCPS), IHS
- Director, DCPS contacts the respective Area Director/Office Director for deployment approval
- Area/Office Director contacts officer's supervisory chain to determine availability for deployment and impact to the program
- Area/Office Director provides approval or disapproval to the Director, DCPS
- Director, DCPS provides a collective list of Area/Office approved officers to the Agency Director for final approval or disapproval
- Director, DCPS will then provide the final list of agency approved officers directly to DCCPR

Please see the attached flow chart which illustrates the authorization process. Remember that officers must be approved by the above Agency process to be deployed.

Once officers receive the Agency's approval to deploy, it is important that they adequately prepare for deployment. One vital pre-deployment activity for the officer is to confirm that the home, work, cellular telephone and email contacts are correct in Direct Access. Accurate officer contact information enhances the ability of the Agency and DCCPR to mobilize officers to the deployment location and back to the officer's duty station in a timely and efficient manner.

For further pre-deployment preparedness information, I have attached the document, "Tips for Your PHS Deployment." Deployment can be a rewarding and valuable experience for Corps officers and one that many officers look forward to, but it can also be challenging and stressful as well. This resource document will assist officers in decreasing some of the stressors associated with deployment. Please use these resources to familiarize yourself with the deployment process to ensure that you are prepared if you are deployed. Please feel free to contact DCPS if you need additional information or guidance. Your effort, dedication, and support of the Agency, and the Corps is greatly appreciated.

Thank you,  
Carol

The Commissioned Corps of the U.S. Public Health Service -

**"Protecting, promoting and advancing the health and safety of the Nation."**

## **Tips for Your PHS Deployment**

These TIPS are general considerations for deployment. As an officer in the U.S. Public Health Service Commissioned Corps, you will be visible during Local, State, and National events and you may be viewed as an expert in your field. Always be aware of this fact and that you represent not only the PHS but IHS as well.

### **Pre-deployment Checklists**

#### **Things to do just before a deployment:**

1. Ensure you have your personal identification. Always carry your Government (USPHS-Uniformed Services) ID, and Driver's License.
2. Ensure you have copies of your professional licensure, certifications, BLS card, etc. Carry these with you on your deployment.
3. Ensure you have adequate medications for your time away.
4. Ensure that you have updated your contact information in Direct Access including work, cell and home telephone numbers and email addresses.

### **Obtaining Your Orders**

Your orders may originate from DCCPR, HHS, or the requesting Agency.

### **Obtaining Your Travel Itinerary**

You may not receive your travel itinerary with a lot of advanced notice. Begin preparing to deploy as soon as you are notified.

### **Obtaining Reimbursement**

Depending on the nature of your deployment, you may be provided with housing and food. In other situations you will be reimbursed for your housing/meal as per diem.

### **Packing for Deployment**

Luggage should be sturdy and lockable. Try to carry only **one check-in bag and one carry-on**. Military duffle bags are authorized up the maximum of 70 lbs on commercial airlines. Do not pack more than you can carry by yourself, and keep one set of clothes, a snack, water, money, medications, and all professional equipment in your carry-on.

#### **Clothing (general notes)**

Bring enough uniforms and clothes to last for 14 days or the length of your deployment.

Shoes should be comfortable and broken in. If not, bring shoe insoles, moleskin, or other items to address blisters. Bring cold weather clothing. Bring exercise clothes/shoes, as appropriate.

Sealable plastic bags are great for keeping items dry in the event that your luggage is not. Try packing items in these bags and then packing them in your luggage.

**FOOD:** At least one day's worth of emergency food (carry-on), because you never know when you will be stranded before/after a flight or how long you will have to wait. This should go in your carry-on bag(s). MRE's/dehydrated food, Cliff Bars, Power Bars, or other concentrated sustenance, along with one day's worth of bottled water.

**This list is not an exhaustive list. It is provided to help you think of things you might not have considered. The actual requirements for any given deployment will vary.**

- Keep some absolute essentials in a carry-on that will enable you to survive for a couple of days if your baggage gets lost (see items below highlighted in red).
- Carry a letter/orders or other ID which might be used to convey to the Airlines/car Rental Agencies that you are responding to a disaster, and need priority assistance in obtain a flight or car rental.
- Select clothes which can be layered for cool to cold weather.

The following checklist cover a basic packing list and can be modified to meet individual and deployment needs. Two good rules of thumb:

- If you cannot afford to lose an item, leave it at home.
- Bring one large bag and a carryon bag. If you cannot carry it, do not bring it.

✓	PACKING LIST	✓	CARRY WITH YOU
	BDU or ODU uniform, 2 sets		USPHS ID Card
	Uniform boots/shoes as per specs		One complete uniform set
	Name tag		Cell phone and charger (if you have one)
	Collar Insignias (extra)		Government Credit card
	Coat		Change of civilian clothes
	Off-Duty Shoes		Travel Orders
	Exercise clothing & sneakers (for sleeping/exercise)		Copy of professional license, certifications, and BLS card
	File Folders – Empty (3-5)		Stethoscope, for clinicians
	Spiral notebook		Flashlight and extra batteries.
	Soap (in plastic container)		14 day supply of prescription medications
	Shampoo (unscented)		Driver's license personal/military
	Shaving supplies		Watch (black/water-proof)
	Deodorant (unscented)		Sleeping Bag/pillow
	Shower shoes/flip flops		
	Hair brush/comb		

1 day food		
OTC's that may be needed; ibuprofen, anti- diarrheal, stool softener		
Toothpaste/brush/floss		
Baby wipes, hand sanitizer		
Ziploc bags		
Laundry bag		
Ear plugs/eye cover for sleeping		
Towel for shower		
Sewing kit--to fix those unpredictable clothing problems		

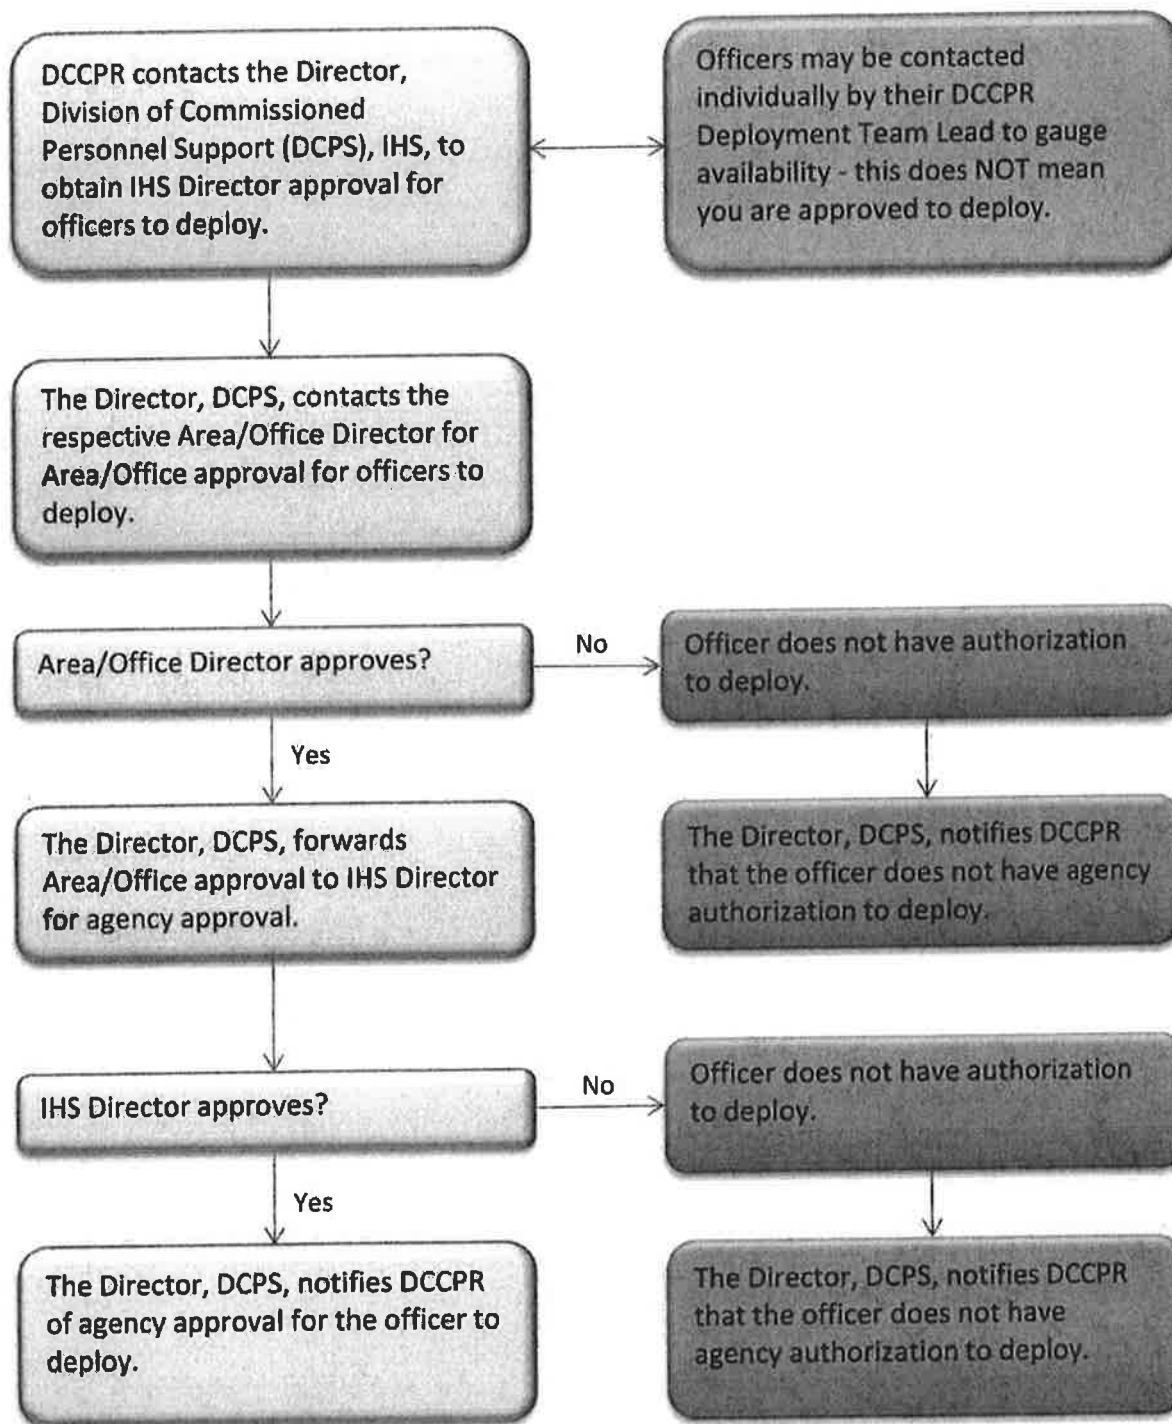

### **Other Valuable Information**

- Dress professionally and modestly, with valuables out of sight.
- Use lockable luggage and label it discreetly so that your name and address are not easily seen. Also, keep a copy of your U.S. address and phone number inside the luggage.
- Carry a list of emergency names, addresses, and phone numbers.

### **Safety on Foot**

- Try to always walk or jog with at least one other companion.
- Be aware of your surroundings. Consult a local street map before stepping out and bring it with you. Avoid checking a map in the open street.
- Seek reliable advice on areas considered safe for walking. Always avoid groups of people loitering on the streets.
- Avoid walking too close to shrubbery, dark doorways, and other places of concealment.
- Use well-lit and well-traveled routes. Do not assume that an area is safe to walk around, especially after dark.
- Maintain a low profile and avoid disputes or commotions in the streets.

**Subject:** RE: APHT-2 Commanders call  
**Attachments:** Unaccompanied Children coming across the Southwest Border.pptx, PPE Risk Assessment Humanitarian Border Crisis Southwest June 2014.doc

All, I have put together a slide show on PPT for our deployers. I used a few links to CDC's website for our deployers on the diseases that they will most likely see while down there (scabies, TB, lice), I can flesh out all those I just didn't want to make it too large to email. If you guys have any corrections or additions just shoot them to me and I can update it. It should cover all the majors and basics. But I am very open to corrections/additions. Also the disease picture might change as we send our team down, so if they are seeing anything, they need to get us the info pronto so I can do a PPE hazard assessment. I have attached a PPE hazard assessment to this email (it's the one we use at CDC, but I updated it, with our info).

Subject: RE: APHT-2 Commanders call

Brian, I've tried to keep the items mission specific, but we could expand them to include weather problems, etc. Here is what I have so far, everyone please feel free to add to these points. Do we know who is actually in charge of this event, Border Patrol, States, State Department, etc. it might be good to know, if they are reporting any safety conditions they have at the holding facilities.

We might as well plan on many of the kids having TB.

Most of these kids are not immunized, so we need to make sure all our staff are immunized. Victoria brought up a good point about the screening process for this event, but I can't imagine not being overwhelmed pretty quickly and the screening requirements being hard to keep up with.

Professional distance is essential; maintain a professional relationship with other staff and the people you are serving.

The kids and young adults are probably experiencing some emotional stress, so be patient and report any serious emotion issues to the staff trained to deal with it.

Adults should never be alone with children... ever (not sure if we have all had this training, or are cleared to work with children).

- Report any questionable adult activity to authorities immediately, anything or anyone who is acting strangely around the kids or is alone with kids.
- Some of these kids are not really kids they are young adults, and we should be wary of personal safety.

I don't either.. who thought of it?

1) CAD: Make a plan to compile agencies Human Resource contacts to give to DCCPR so the word can get out that MLS officers are needed-

**Subject:** RE: MLSPAG meeting agenda

Just sent out the meeting reminder. ☺

FYI: quick note that under Action Items from the last meeting minutes we had:

- 1) CAD: Make a plan to compile agencies Human Resource contacts to give to DCCPR so the word can get out that MLS officers are needed-----not sure who was doing this-----
- 2) CDR Galloway will follow up with CDR Nichols and CDR Alsapach regarding SAC. -----done!-----

**Subject:** RE: MLSPAG meeting agenda

I know all I have is , Renee do you have anything else or Julie

1. Promotions
2. COA
3. Approval of by laws
4. Deployment- unaccompanied minors

**Subject:** MLSPAG meeting agenda

Hi Cara,

Just send me the June agenda when you have it and I will send out a meeting reminder with the agenda and April minutes attached.

Thanks,  
Julie
