INSPECTOR GENERAL OF THE INTELLIGENCE COMMUNITY  
WASHINGTON, DC 20511

Mr. Randall Coleman  
Assistant Director, Counterintelligence Division  
Federal Bureau of Investigation  
935 Pennsylvania Ave., N.W.  
Washington, DC 20535

**SUBJECT:** Section 811(c) Referral – Potential Compromise of Classified Information

**SENT VIA SECURE FACSIMILE**

Dear Mr. Coleman,

(U) On March 12, 2015, Senate Committee Chairmen Burr, Corker, and Johnson requested that the State Department Inspector General (State IG) conduct a review of State employees' use of personal email and non-government networks for official purposes. The Chairmen asked State IG to address several specific areas, including whether classified information was transmitted or received. The Chairmen also requested State IG coordinate their review with the Inspector General of the Intelligence Community (IC IG). State IG thereafter initiated a review and requested IC IG support.

(U) Concomitant with the State IG review, State FOIA officials are reviewing more than 30,000 emails provided by former Secretary of State Hillary Clinton. According to the former Secretary, these 30,000 emails were transmitted via personal hardware and software devices during her tenure at State.

(U//~~FOUO~~) In support of State IG's review, IC IG reviewed 296 of the 30,000 emails. State had FOIA-processed these 296 emails and released them publicly on May 22, 2015. IC IG found that two of these 296 emails contained classified information. One email had been redacted using a "B1" FOIA Exemption. The other email had been processed and released in an unclassified

and unredacted form. This second email should have been marked SECRET//SI//REL USA, FVEY according to FOIA officials at the Defense Intelligence Agency (DIA), National Geospatial-Intelligence Agency (NGA), and National Security Agency (NSA). These Intelligence Community FOIA officials confirmed that State FOIA officials did not coordinate with them in regard to the public release of this second email.

(U//~~FOUO~~) As part of its review, State IG sent former Secretary Clinton's personal attorney, Mr. David E. Kendall, a preservation request regarding systems and devices related to the 30,000 emails. IC IG co-signed this request. Mr. Kendall replied to the request (see enclosure), and noted that he had stored electronic copies of all 30,000 emails on a thumb drive located in his law office. Mr. Kendall also noted that the former Secretary's personal server is in the custody of a company named "Platte River Networks."

(U//~~FOUO~~) As the thumb drive and personal server contain classified information and are not currently in the Government's possession, we are referring this matter to your office for any action you deem appropriate.

(U) Please do not hesitate to contact me, at [REDACTED] with any questions or concerns.

Sincerely,

I. Charles McCullough, III

Dear [REDACTED]

I write as personal counsel to former Secretary Clinton in response to your June 9 e-mail request for additional details regarding our preservation efforts related to Secretary Clinton's work-related e-mail from her tenure as Secretary of State.

I note at the outset that the Department of State is in possession of all of Secretary Clinton's work-related and potentially work-related e-mails. Specifically, in response to an October 2014 letter request from the Department of State, Secretary Clinton's counsel identified all work-related or potentially work-related e-mail in her possession, custody, or control. In total, 30,490 e-mails, all of which were from her @clintonemail.com account, were identified and provided in hard copy to the Department of State in December 2014. As her personal counsel, we continue to retain a preservation copy of the .pst file containing the electronic copies of those e-mails, on a thumb drive that is stored in a secured safe at the offices of Williams & Connolly LLP, 725 12th Street NW, Washington DC 20005. The only two persons authorized to access that thumb drive are me and my law partner, Katherine Turner.

In addition, we have taken steps to retain the server equipment that hosted Secretary Clinton's @clintonemail.com account during her tenure as Secretary of State, even though that equipment is no longer active and, we believe, no longer contains any data from Secretary Clinton's @clintonemail.com account. The equipment is in the custody of Platte River Networks and is maintained at a secure data center. In response to preservation notices related to Secretary Clinton's e-mail received that I have received

MEMORANDUM FOR: SEE DISTRIBUTION

SUBJECT: Update to IC IG support to State Department IG.  
(Re: 12 March 2015 letter from Chairmen Burr,  
Corker, and Johnson)

(U//~~FOUO~~) On 12 March 2015, the Inspector General of the State Department (State IG) received a letter from Chairmen Burr, Corker, and Johnson asking for, among other requests, a review of State Department employees' usage of personal email for official purposes. The letter also requested State IG to coordinate with my office to determine whether classified information was transmitted or received by State Department employees over personal systems. On April 16, 2015, State IG initiated a review of the use of personal communications hardware and software by five Secretaries of State and their immediate staffs.

(U//~~FOUO~~) In December 2014, former Secretary Clinton provided the State Department with approximately 55,000 pages of electronic documents. These documents were deemed to be official business, and had been transmitted via personal communications hardware and software. The State Department is in the process of reviewing these documents for potential public release in response to Freedom of Information Act (FOIA) requests.

(U//~~FOUO~~) State IG asked my office to validate the procedures being used by State Department FOIA staff as they process the 55,000 pages of electronic documents. Our preliminary assessment of the FOIA pre-release process determined that State Department FOIA staff lacked sufficient familiarity with Intelligence Community (IC) equities to properly identify potentially classified information. We provided State IG with some recommendations, and State IG forwarded our recommendations to the State Department FOIA staff. One of our recommendations was that State Department FOIA staff request support from IC FOIA officials to better protect potentially classified information.

(U//~~FOUO~~) My staff also reviewed 296 emails released by State FOIA officials on 22 May 2015. We identified one document that had been released in an

unclassified and unredacted form that --according to DIA, NSA, and NGA FOIA officials -- should have been marked and handled as SECRET//NOFORN. Further, these IC FOIA officials confirmed that the document in question had not been coordinated with the appropriate IC elements before public release.

(U//~~FOUO~~) My office notified the National Counterintelligence and Security Center (NCSC) as well as other appropriate CI/Security officials of this released, unredacted document. Under Intelligence Community Directive 701, *Deterrence, Detection, Reporting, and Investigation of Unauthorized Disclosures of Classified National Intelligence*, NCSC (formerly National Counterintelligence Executive) is responsible for assessing unauthorized disclosures of classified information and making any notifications they deem necessary to the Department of Justice.

MEMORANDUM FOR: DISTRIBUTION

SUBJECT: Classified Material on Personal Electronic  
Storage Devices

(U//~~FOUO~~) On 19 June 2015 my office notified your committees that we had recently assessed the Freedom of Information Act (FOIA) document review process at the Department of State (State). This assessment was limited to the ongoing process being used by State FOIA officials reviewing almost 55,000 pages of emails that had been provided to State by former Secretary of State Clinton. These emails had previously existed on, and had been transmitted via, a non-government communication system but were deemed to be official business by former Secretary Clinton's staff.

(U//~~FOUO~~) As part of our assessment, we also reviewed a subset of these same documents, some 296 emails, that had already been reviewed and released by State FOIA officials in response to several FOIA requests. According to DIA, NSA, and NGA FOIA officials – at least one of these unredacted emails should have been marked and treated as SECRET//NOFORN.

(U//~~FOUO~~) On 24 June 2015, the State Inspector General received the attached letter from former Secretary Clinton's personal counsel, David Kendall. This letter discusses the former Secretary's provision of documents from her personal server to State; the current location of the personal server; and information about a mobile electronic storage device (thumb drive) presently in her counsel's possession. The above-mentioned SECRET//NOFORN document is likely on the thumb drive and possibly on the personal server (although Mr. Kendall notes he believes the personal server no longer contains any data).

(U//~~FOUO~~) Given the likelihood that classified material may exist on at least one unsecured, non-government system, the IC IG and State IG immediately notified security officials at ODNI, State, DIA, NSA, and NGA in accordance with Intelligence Community Directive 701, *Deterrence, Detection, Reporting, and Investigation of Unauthorized Disclosures of Classified National*

Dear Mr. Linick:

(U//~~FOUO~~) Thank you for reaching out to my office to assist you in your current review entitled "Use of Personal Communications Hardware and Software by Five Secretaries of State and Their Immediate Staffs." Thus far, our assistance has been tailored to reviewing State Department's Freedom of Information Act (FOIA) process and how classified information is safeguarded in that process.

(U//~~FOUO~~) Our preliminary review identified four areas that may require immediate attention by State FOIA officials, in coordination with Intelligence Community FOIA officials. Those areas are detailed in the attached memorandum. My team has briefed your team members on these developments and will continue to refine findings and recommendations as the review progresses.

PURPOSE:

(U//~~FOUO~~) Document Potential Issues Identified in Preliminary Review of the State Department FOIA Process.

(U//~~FOUO~~) The Office of the Inspector General of the Intelligence Community (IC IG) is assisting the State Department IG's office in the above referenced review; focused on the handling of potentially classified material during the State Department Freedom of Information Act (FOIA) review process. I am conducting a preliminary review of the handling of potentially classified material during the State FOIA review process being used to review the 33,000 emails provided by former Secretary Clinton from her personal email server. Thus far, I have identified four areas that may require expedited attention by State FOIA officials, in coordination with IC FOIA officials. Those areas are:

1. (U//~~FOUO~~) **Evaluation of other agencies' equities is not optimal.** State Department is currently relying on retired senior Foreign Service Officers to review for other agencies' equities in FOIA cases. For example, a review of the first set of 296 emails received from former-Secretary Clinton and released on the State Department FOIA website identified material that should have been referred to IC FOIA officials for review prior to release. **Recommend State Department FOIA Office request staff support from IC FOIA offices to assist in the identification of intelligence community equities.**

THIS IS A DELIBERATIVE PROCESS DOCUMENT AND INTENDED SOLELY FOR OFFICIAL USE BY THE IC IG. RECIPIENTS MAY NOT FURTHER DISSEMINATE WITHOUT THE EXPRESS PERMISSION OF IC IG PERSONNEL.

UNCLASSIFIED//~~FOUO~~

HRC-391

(U//~~FOUO~~) Document Potential Issues Identified in Preliminary Review of the State Department FOIA Process.

2. (U//~~FOUO~~) **Storage and distribution of FOIA material is occurring on a SECRET level network.** State Department is using a SECRET level network (ClassNet) to store the 33,000 emails acquired from former-Secretary Clinton. State is also using ClassNet to distribute the FOIA material for review by both the intra-and-inter-agency. Material at the SECRET//NOFORN level was identified in the first set of 296 emails prior to their release. **Recommend IC FOIA officers review the emails to ensure ClassNet use is appropriate before transmitting to the State Bureaus for review.**
3. (U//~~FOUO~~) **Applying appropriate FOIA exemptions to protect classified information.** State Department FOIA personnel recommended five "B1" (Classified National Security Information) FOIA exemptions for proposed redactions in the first set of 296 emails to protect classified information. According to State FOIA personnel, during the State Department Legal Office's review, four of the B1 exemptions were removed and changed to "B5" FOIA exemptions (Privileged Communications). **Recommend State Department FOIA Office seek classification expertise from the interagency to act as a final arbiter if there is a question regarding potentially classified materials.**
4. (U//~~FOUO~~) **It is unclear if the Department of Justice is reviewing the emails before FOIA release.** Former-Secretary Clinton's emails are the subject of numerous FOIA requests and multiple FOIA lawsuits. It may be prudent to integrate the Department of Justice into the FOIA process review to ensure the redactions can withstand potential legal challenges. **If not already being done, recommend the State Department FOIA Office incorporate the Department of Justice into the FOIA process to ensure the legal sufficiency review of the FOIA exemptions and redactions.**

**MEMORANDUM FOR THE INSPECTOR GENERAL**

**FROM:** M – Patrick F. Kennedy *PMK*  
**SUBJECT:** Potential Issues Identified by the Office of the Inspector General of the Intelligence Community Concerning the Department of State's Process for the Review of Former Secretary Clinton's Emails under the Freedom of Information Act (ESP-15-04)

I am in receipt of the subject Memorandum (dated June 19, 2015) and its accompanying Memorandum and Attachment from the Inspector General of the Intelligence Community (ICIG). Responses to the four recommendations are contained in the attached.

The Department of State's FOIA processes are consistent with those of other agencies. State's FOIA personnel analyze responsive records for disclosure pursuant to the provisions of the FOIA and apply exemptions to the documents as appropriate. Department FOIA reviewers are trained in applying the exemptions, using guidance made available by the Department of Justice's Office of Information Policy. The reviewers consult with subject matter experts in Department components and with FOIA attorneys in the Department's Office of the Legal Adviser, as appropriate. In turn, the Department's attorneys consult regularly with attorneys at DOJ's Federal Programs Branch and attorneys at U.S. Attorney's Offices on legal issues that arise in the context of the FOIA and FOIA litigation. Consistent with the long-standing practice of third-agency review within the Executive branch and DOJ Policy on Referrals, Consultations, and Coordination, the Department consults with other agencies with respect to the review and disclosure of records that contain information that is of interest to another agency.

Taking the above in account, the Department finds the issues raised by the ICIG are either already addressed in current processes or are inconsistent with interagency practices. Further, the recommendations provided by the ICIG would add to the FOIA review process schedule and make it more difficult to meet the U.S. District Court order for rolling productions without meaningfully enhancing the review process.

As stated.

HRC-393

### Recommendation #1

The process utilized by the State Department to identify other agency equities is one with parallels throughout the United States Government.

Prior to undertaking the current effort, a senior level meeting was held with representatives of a number of agencies (including the CIA and ODNI); the process to be utilized was outlined; and no objection was entered.

The retired senior Foreign Service Officers are utilized because of their years of both FOIA experience and substantive expertise in the various regional and functional issues that are reviewed.

If there are specific examples from the "Benghazi" 296 set that are of concern, the Department would welcome further information.

### Recommendation #2

The State Department Classified network is authorized to handle up to SECRET material, including NOFORN, and thus ClassNet is the appropriate system for the storage and distribution of these FOIA materials.

Should the Department identify an e-mail that potentially contains material that could be classified at a higher level, that material would be pulled from the database and transmitted for review via an appropriate channel.

### Recommendation #3

Final determinations of classification decisions are made by senior personnel within the Department's FOIA office, assisted by subject matter experts in relevant bureaus and in the Office of the Legal Adviser, after referral of other agency equities have been made to the appropriate agencies and their comments received. These individuals have the experience and expertise necessary to carry out this responsibility correctly.

### Recommendation #4

Emails with Department of Justice equities (including those of its component entities) are forwarded to the relevant DOJ entities for review. Legal sufficiency review of the FOIA exemptions and redactions are conducted by attorneys from the Office of the Legal Adviser; they consult regularly with the Department of Justice's Federal Programs Branch regarding FOIA issues and litigation, including litigation involving the former Secretary's emails. This type of process is common throughout the interagency.

FROM: *SL* Steve A. Linick, Inspector General, Department of State  
*ICM* I. Charles McCullough, III, Inspector General, Intelligence Community

SUBJECT: Potential Issues Identified by the Office of the Inspector General of the Intelligence Community Concerning the Department of State's Process for the Review of Former Secretary Clinton's Emails under the Freedom of Information Act (ESP-15-05)

We understand that, in compliance with a federal court order connected to pending Freedom of Information Act (FOIA) litigation, the Department plans to publish tomorrow a portion of the 55,000 pages of emails produced by former Secretary Clinton. We are therefore providing this Memorandum as follow up to our June 19, 2015, Memorandum to you, to provide additional information supporting our concerns about the current process underway to review the 55,000 pages of emails prior to publication.

On June 26 and June 27, 2015, Department staff responsible for FOIA issues further reviewed a portion of the 55,000 pages that have been or are to be reviewed. They report discovering hundreds of potentially classified emails within the collection. In addition, there is concern that possible classified material will be posted in tomorrow's release. Staff members from the Office of Inspector General for the Intelligence Community (IC IG) are now taking steps to verify the classification of some of these emails.

Under the circumstances, we continue to urge the Department to adopt the recommendations made by the IC IG in our June 19 Memorandum in order to enhance the current review system and to further minimize risk. The Department should ensure that no classified documents are publically released.

I would appreciate your advising the IC IG that if his office believes that there is material that needs to be withheld, it needs to identify the specific documents involved. The ?Bates Stamp? number on the document is a sufficient reference item to let us know which are of concern.

Since we are set by court order to publish the first tranche tomorrow, I would hope that we get this material soonest.

We are willing to provide assistance to State in recognizing IC equities. At this point I know NSA and NGA are willing to help, and I believe CIA may also be willing to participate.

This would be to help State identify equities so that records could be referred through the normal process. I do not think that anyone intends to send officers down to State on a full-time basis to review and redact.

We are willing to provide assistance to State in recognizing IC equities. At this point I know NSA and NGA are willing to help, and I believe CIA may also be willing to participate.

This would be to help State identify equities so that records could be referred through the normal process. I do not think that anyone intends to send officers down to State on a full-time basis to review and redact.

Greetings Jennifer,

I hope that you are well. As discussed, the IC IG recommended that State FOIA officials seek the assistance of IC FOIA officials for identifying IC equities in the current State FOIA review of over 30,000 emails provided by Former Secretary Clinton. As the ODNI FOIA official, we are seeking your assistance with this recommendation. Please advise if you are willing to

provide such assistance to the State FOIA officials and if you are, can you reach out to other IC FOIA officials and ascertain if they too are willing to provide such assistance. We look forward to your response.

Thanks in advance,

**MEMORANDUM FOR UNDER SECRETARY KENNEDY**

FROM: Steve A. Linick, Inspector General, Department of State  
*ICM* Charles McCullough, III, Inspector General, Intelligence Community

SUBJECT: Request for Electronic Copy of Former Secretary Clinton's Emails

As you know, the Office of the Inspector General (OIG) is currently reviewing the use of personal communications hardware and software by five Secretaries of State and their immediate staffs, and is receiving assistance from the Office of the Inspector General of the Intelligence Community (ICIG).

During our July 1, 2015, meeting with you and [redacted] at the ICIG [redacted] advised us that the Department has obtained from Secretary Clinton's counsel an electronic copy of the 55,000 pages of emails produced by Secretary Clinton in hard copy to the Department in December 4, 2014. As further background, on June 24, 2015, Secretary Clinton's counsel sent OIG a letter, which was shared with you the following day, advising that her counsel retained "a preservation copy of the .pst file containing the electronic copies of those e-mails, on a thumb drive that is stored in a secured safe" in counsel's offices. OIG now requests that you provide to OIG two copies of this .pst file, for use by OIG and ICIG.

FROM: M – Patrick F. Kennedy *PKC*

SUBJECT: Your Request for Electronic Copy of Former Secretary Clinton's  
Emails

This memorandum is in response to your July 10, 2015, memorandum in which you ask that the Department provide to OIG and to the Inspector General for the Intelligence Community (ICIG) .pst files containing all of the emails that Secretary Clinton produced to the Department in hard copy in December 2014.

First, to clarify, [ ] told [ ] that the Department has requested Secretary Clinton's counsel to provide an electronic copy of the emails that were produced. [ ] also advised that, while Secretary Clinton's counsel agreed to do so, we had not yet received – nor have we since received – such a copy.

b6  
b7C

As you know, the Bureau of Administration (A) has, scanned and loaded the emails in a .pdf file into a system on CLASSNET for record keeping purposes and the ongoing Freedom of Information Act (FOIA) review of this material, as well as to fulfill other FOIA requests.

In the course of the current review, your staff has been given access to those electronic records on CLASSNET, including the ability to conduct searches on particular segments. This electronic access can be extended to the entire body of material via CLASSNET if you wish.

Given the intense public interest in and the sensitivity of the former Secretary's emails, we would have serious concerns about providing the emails outside of the Department in a removable/transferable medium. Moreover, we have concerns about providing any such removable copy to the ICIG for the simple reason that much of what is contained in Secretary Clinton's emails relate to the programs and operations of the Department of State and not to programs and

operations over which the ICIG has oversight responsibilities. *See* Inspector General Act §2; *et seq.* For example, there are numerous emails relating to deliberations and decisions regarding the appointment of individuals to positions at the Department of State. It seems beyond the scope of the ICIG's authority to review such emails and could be an unnecessary invasion of the privacy of the individuals being considered. Similarly, the emails include information, much of it deliberative, concerning a broad range of Department programs and operations that cannot reasonably be said to implicate IC equities.

At the invitation of the A Bureau, IC FOIA reviewers are reviewing emails and identifying those emails that might implicate IC equities. Copies of any such emails are then being provided to the IC for its review. The ICIG can obtain those emails from the IC entities for which it has oversight responsibility, or, if you wish, we can identify those emails to your office so that you can work with the ICIG.
