Deputy Assistant Secretary for Global Information Services
Bureau of Administration
U.S. Department of State
SA-2, Suite 8000
515 22nd Street, NW
Washington, DC 20522-0208**

Dear Ms. Grafeld:

I am in receipt of your letter of April 2, 2015, responding to the National Archives and Records Administration's (NARA) formal request of March 3, 2015, that you provide us with the report required in 36 CFR 1230.14 concerning the potential alienation of Federal email records created and received by former Secretary of State Hillary R. Clinton.

I appreciate the details you have provided to date; however, recognizing that the situation continues to be fluid; there are currently two major questions or concerns that the Department needs to address.

First, in your response you described and forwarded key policy directives issued by the Department in 2014, on records management in general, including specific guidance related to the management of email and other electronic records of senior agency officials. Related to these policies, I am requesting additional information on how the Department implemented these directives with senior officials. More specifically, we would like to understand the specific training, procedures, and other controls the Department employed to ensure the key directives were implemented. This will allow NARA to evaluate whether there are appropriate safeguards in place to prevent the alienation of records from occurring in the future.

Second, as we have discussed, I would like to reiterate our request that the Department contact the representatives of former Secretary Clinton to secure the native electronic versions with associated metadata of the approximately 55,000 hard copy pages of emails provided to the

Department. If the Department is unable to obtain the electronic versions of these messages from Secretary Clinton, I am requesting that the Department inquire with the internet service or email provider of former Secretary Clinton, and also of former Secretary Powell, with regard to whether it is still possible to retrieve the email records that may still be present on their servers. As stated in the OMB/NARA M-12-18 *Managing Government Records Directive*, Federal agencies are required by the end of 2016 to maintain all electronic records, including email, in their native electronic format to facilitate active use and future access.

I am aware that there are multiple ongoing inquiries into the details of this case, including by Congressional oversight committees and the Department's Inspector General, which may already be addressing the requests that I have made. I would therefore appreciate continuing updates on the current status of these activities to the extent possible, particularly where the investigations may reveal that the collection Secretary Clinton provided to the Department is incomplete. I also look forward to receiving copies of the final reports of all such investigations, as well as the Department's plans for corrective action. This documentation will assist us in understanding this situation and the Department plans to ensure a comparable situation will not happen in the future.

In closing, I would like to convey my appreciation for the Department's efforts in following up with the representatives of the former Secretary on the many concerns that have surfaced in the past several months. We share many of the Department's concerns and stand ready to provide advice when needed on the records management issues that arise.

I look forward to receiving your response and appreciate your continued attention to this matter.

Sincerely,

PAUL M. WESTER, JR.
Chief Records Officer
for the U.S. Government
