We anticipate having the cash on Monday. We have been working with Finance to ensure we can pay timely.

Thank you.

Per email below, it looks like the first shipment of 3.4m of surgical masks are coming in [REDACTED] and will need to get paid by Tuesday, April 27th. Do we have the cash/funding to pay the first invoice? Please advise.

Thank you.

Gemma

Absolutely! The physical count will be at the airport and upon movement into the warehouse for inventory and QC, we will notify receipt and if there are any deficiencies. We are only checking 1% due to the volume.

Will also need your team to reach out on the shipment dates to validate so we have double check taking place.
