Subject: Tissue delivery

---

Hi Perrin,

Just wanted to follow up with you regarding the tissue deliveries. We have three batches of mice that still need to be humanized, so please keep us on the schedule every week until we manage to receive three sets of tissue. As of right now we still prefer Wednesday or Thursday delivery, but I will see if it might not be possible to add a Friday for some of the upcoming weeks. I will have to check with the staff to see what their schedules look like before I can confirm any additional delivery dates.

Regards,  
Kristina
