## Hi Kristina,

This shouldn't be a problem. I will have you on the schedule and will give (b) (6) e-mail address for notification. Should all of the tissue we're sending be sent to you and (b) (6) or just the one for this/next week?

I've put all of the requests below on our schedule, so we'll be set for July and August.

I'm sure won't have a problem billing to the existing PO since you've done it in the past.

Best,

Perrin
