Team,

Had a Supervisor's Meeting with the SAIC this afternoon. Here are the highlights:

-2 x GS-14 were promoted on the last list for (b) (7)(E) and Wilmington. The JOA announcement to fill the respective details is at OPO. Solicitations should come out in the near future. Then we have to wait for the decisions and then T#'s to transfer the SA's to their new assignments. Once the details start getting staffed, we will see some reduction in the Temp numbers. Will be months before that happens, but the wheels are slowly moving in the right direction.

-A recommendation to reduce the number Temp Assignments of the (b) (7)(E) detail was sent to the chain of command. Proposal is currently at (b) (7)(E) and are in discussions.

-Family pets are both in Wilmington. Younger pet bit a Shift SA yesterday. Staff/first family are getting him a full time trainer to correct his behavior in Wilmington. I will let you know if/when they both come back to (b) (7)(E). The biting incident is in the news now (Google it). Just another reminder that the press is always looking for a story. Maintain awareness of your conversations and social media presence. We do not want and cannot have a press leak attributed to us.

Thanks and have a good night.
