Thank you Zhengli and Zhiming for your comments and the reference publications. I did not receive the document I sent for your review so if you made comments on that, please resend. I'm afraid that this discussion will continue for some time regarding where early coronavirus work was being done, the role, if any, of the Wuhan CDC in research on bat-associated coronaviruses, and exactly when scientists at WIV first became aware of the new coronavirus and had possession of specimens in the WIV and where was that work done (level of biocontainment). Next week will be busy...

Best wishes, Jim

Dear James,

Thank you for your clarifying.

I've added some detailed information for your reference. I'm also sending you some papers published for your reference.

Best regards,
