In March, WFO articulated the following investigative plan [redacted] which was also conveyed to DOJ.

Other Options for Resolution

* Ask to speak to FPOTUS/Counsel FPOTUS stated at the time WFO retrieved the classified records in June that he would be willing to assist and cooperate. Logically, if we have additional questions about the location of classified documents, he would be a witness to interview.

* Request DOJ to contact Corcoran/Bobb regarding new material witness information WFO has developed no information from a witness who has observed classified information at Mar a Lago since the return of the classified records in June. A reasonable step would be to recontact the attorney and inquire about any further documents.

WFO has made numerous suggestions to DOJ over the course of this investigation that the most expedient way to ensure recovery of all classified documents would be to go through Mr. Corcoran. DOJ has persistently disagreed.
* New NARA Referral for all PRA vs. classified If NARA pursued "presidential records" which are likely to still be located at Mar a Lago, they could recover any additional records which may, upon review, identify additional classified material. WFO has been rebuffed in this request by DOJ.

WFO does not believe (and has articulated to DOJ CES), that we have established probable cause for the search warrant at Mar a Lago. DOJ has opined that they do, requesting the a wide scope including residence, office, storage space.

Finally, if the goal is to identify and recover classified records quickly, so as to protect the information, the 5 weeks spent fixated on probable cause for a search warrant have been counterproductive.

Other

*DOJ has inquired as to an Ops Plan for a SW of MAL. WFO relayed that we are not in agreement for PC on the SW. WFO has an Ops Plan in place that will can be quickly updated between FBI/MM and FBI/WF, however, [redacted] does not believe we have PC for the 45 Office or the bedroom due to recency and issues of boxes versus classified information. Therefore, as we are in disagreement on the SW and its scope, we are not yet finalizing a SW as we are missing relevant logistics and details.
