63G-2-305(11) We don't want the sod. You can junk that.

Edited

Sounds good, we'll get it out of here.

Stand by. We do want some over by the Event Center.

Ok. There's a couple small

Ok. There's a couple small spots east of the ticket booth at the Event Center that did not take. It will be very obvious if they go take a look. It was too hot when we laid it. This go around it will be great timing.

The sod will easily lift up and the new pieces can easily be put back in place.

Sounds good. We'll get it over there and installed

Thank you!

After we do that, are we okay to remove the remaining sod?

Yes

We won't trash it so if UVU needs it in the future we'll have it

Sod is pretty cheap

Red is too much.

Gray pavers.

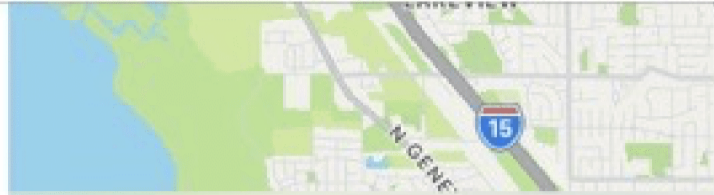

On it

Can you send me a pin where the sod needs to be placed at the event center? Aerial view

Also, can we be shown where the irrigation valve is for that area?

We have the main off due to a break.

The valve is to the north.

Up the ramp.

Thanks!

We heard the media was bothering your team. Shall we send a uniform over?

Maybe that would be good. My guys are well trained in

Did you see my poster draft?

Yes. Those guys did good for us.

Pavers or concrete for the courtyard?

For a redesign? Or what exactly are you referring to?

Yes. They want to do something tomorrow. Contractors are cleaning their tools.

I like concrete for ease of maintenance and snow for removal. Could do stamped concrete in some areas to get a good feel.

Where are we thinking the work will begin for tomorrow.

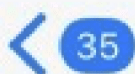

Was this part of the big plan like you and U6(were asking? Or a quick change or improvement ?

On the new sod.

On the new sod.

Pavers above the pump
station.

That sounds good. If the area
is to remain open in winter, I
suggest concrete to help with
maintenance.

I'll turn water off in the area.

From dfcm:

Our guys busted their tails today. The first pavers are being laid down now. I've coordinated either the State Fairpark on getting more fencing. We picked it up and we are delivering it shortly.

Am I good to turn sprinklers all back on?

Fri, Sep 12 at 6:11 PM

???

Hold up I'll ask now again

are good to go.
Thanks

Today 6:17 PM

Chief says let the water flow!

Thank you

The cops just called me into the fountain. Area to get them some water. We're not gonna need to cut out any sod. I don't think i bet we can just wash it all down

Ok great news

Let me know and I'll pass it along

Well, they're done now. And there is still some stuff to cleanup
But I think we can get it cleaned pretty easy.

Stuff as in blood ?

There's still A
Eight inch puddle ish

Pluggger

Hell no

You trying to splash stuff

The solution to pollution is dilution

Yea true. Just up the irrigation

I'll just grab a hose and spray it,
man

Tonight?

No, tomorrow.
The FBI is still there. I guess.
