Attorneys for Utah Valley University

**UTAH DEPARTMENT OF GOVERNMENT OPERATIONS
DIVISION OF ARCHIVES AND RECORDS SERVICE
GOVERNMENT RECORDS OFFICE**

BILL MARSHALL,

Petitioner,

vs.

UTAH VALLEY UNIVERSITY,

Respondent.

**RESPONDENT’S STATEMENT OF FACTS,
REASONS, AND LEGAL AUTHORITY**

Case No. 2026-004

Per Utah Code Ann. § 63G-2-403(5)(a), Utah Valley University (“UVU”), through Assistant Attorney General Nicole Ferguson, submits the following statement of facts, reasons, and legal authority in response to the Government Records Access and Management Act (“GRAMA”) appeal filed by Petitioner Bill Marshall. Mr. Marshall’s appeal should be denied as UVU conducted a reasonable search for records in response to his GRAMA request.

STATEMENT OF FACTS

1. On November 20, 2025, Petitioner submitted a GRAMA request to UVU seeking: (1) All records related to the destruction and/or removal of evidence and/or materials from the site of the assassination of Charlie Kirk on September 10, 2025. Such records shall include but not be limited to UVU police/security personnel emails and text messages, reports, directives,

contractor invoices and authorizations; and (2) All records related to the paving operation that occurred at the site on the UVU campus of the Charlie Kirk assassination, including email and text communications among university officials about the work, emails and text messages between the university and contractors involved in the operation, estimates, invoices for the work, purchase orders, and all related records.” *See* Exhibit A.

2. On November 24, 2025, the Record Officer notified Petitioner that due to the extraordinary circumstance of a high volume of record requests, they estimated the request would be completed within fifteen business days. *See* Exhibit B.

3. On December 15, 2025, the Record Officer denied Petitioner’s request, stating that the request was not reasonably specific as required under Utah Code Ann. § 63G-2-204(1)(a)(ii). For item one of the request, because the terms “evidence/materials” were too broad and did not identify the departments to search, and for item two of the request, as it was not clear which “university officials” or “related records” were intended. *See* Exhibit C.

4. On December 26, 2025, Petitioner appealed the Records Officer’s decision to UVU’s Chief Administrative Officer (“CAO”), Val Peterson, stating that the request was sufficiently described. *See* Exhibit D.

5. On January 8, 2026, the CAO granted Petitioner’s appeal in part, finding that the common meaning of the words “evidence” and “materials” were sufficient to conduct a search of the areas of the university reasonably likely to possess responsive records. *See* Exhibit E. In accordance with the above determination, the CAO provided Petitioner with responsive records.

6. UVU incorporates into this document all the arguments and authority discussed and cited in the CAO’s January 8, 2026, Appeal Response.

7. On January 9, 2026, Petitioner appealed to the Director of the Government Records Office, arguing that records responsive to the first item could not be withheld on the basis of ongoing law enforcement proceedings and that the search was inadequate with respect to the second item because it failed to identify records relating to the “paving operation.”

SUPPLEMENTAL RECORD PRODUCTION

In connection with this appeal response, UVU is simultaneously providing a supplemental production of records responsive to Petitioner’s GRAMA request. Certain information in the supplemental production has been classified as protected under to Utah Code Ann. § 63G-2-305(10)(c), § 63G-2-305(11), and § 63G-2-305(12), and as private under to Utah Code Ann. § 63G-2-302(2)(d). Pursuant to Utah Code Ann. § 63G-2-308(2), UVU has redacted only those portions of the records that are properly classified under GRAMA and is producing the remaining nonexempt portions.

Each redaction is marked with a citation to the applicable provision of GRAMA and/or other law that authorized the redaction. In addition to the records being produced, UVU has identified one record that is being withheld in full: a check relating to payment to the vendor that cleaned the site where Mr. Kirk was killed, which includes banking information and the name of the vendor. That record is classified as protected under Utah Code Ann. § 63G-2-305(11) and § 63G-2-305(12). The supplemental records identified as responsive have been provided with redactions made to classify as protected the identity of the those involved pursuant to Utah Code § 63G-2-305(11) based on the heightened public interest and concerns of threats to their life and safety should their identity become known, and with the other redactions identified above.

REASONS AND LEGAL AUTHORITY

Petitioner's Appeal Should be Denied Because UVU Conducted a Reasonable Search.

GRAMA provides that a governmental entity “shall conduct a reasonable search for a requested record.” Utah Code Ann. § 63G-2-201(7)(b). A “reasonable search” is one that is: “reasonable in scope and intensity” and “not unreasonably burdensome for the governmental entity.” Utah Code Ann. § 63G-2-103(24). In an appeal concerning whether a governmental entity possesses or maintains requested records, the governmental entity bears the burden to show by a preponderance of the evidence that its search for the requested records was reasonable. Utah Admin. Code R35-1-3(1)(a). If that showing is made, the burden shifts to the petitioner to show that the search efforts were not reasonable. Utah Admin. Code R35-1-3(1)(b).

Here, UVU conducted a reasonable search tailored to the wording of Petitioner's request and to the locations and custodians reasonably likely to possess responsive records. GRAMA requires reasonableness, not perfection, and does not require a governmental entity to search offices or personnel that are not reasonably likely to maintain responsive records.

With respect to the portion of the request seeking records related to the removal of evidence and/or materials from site of the assassination of Charlie Kirk,” UVU consulted the departments and personnel reasonably likely to have been involved in that work. Stacy Fowler, an assistant GRAMA Records Officer, consulted with the Utah Valley University Police Department (UVUPD) regarding this request and was told that UVUPD did not have control of the crime scene or involvement in the removal of evidence or materials from the site of the incident so they would not have responsive records. See Exhibit F, Declaration of Stacy Fowler, ¶ 4. Because UVUPD did not participate in any aspect of the evidence removal process, a search of UVUPD emails and text messages was not conducted as it was not reasonably likely that the

search would produce responsive records related to “the destruction and/or removal of evidence and/or materials from the site of the assassination of Charlie Kirk.” Under GRAMA, it is both appropriate and expected that an institution tailor its search efforts to a reasonable scope- to those offices or custodians reasonably likely to hold responsive records. This is particularly important when a request—such as this one—seeks “all records” but does not identify a specific custodian or department to search. UVU consulted the departments and personnel reasonable likely to have been involved in that work. As set forth in the declarations submitted with this response, UVU determined that the UVU Police Department did not control the scene cleanup or removal work at issue and did not participate in that process. Because UVUPD was not reasonably likely to possess responsive records concerning that work, it was reasonable not to conduct a further search of UVUPD communications for that category of records. Instead, UVU directed its search to the offices and personnel actually involved in coordinating and carrying out the post-incident cleanup and removal activities.

After the site was returned to UVU’s control, Frank Young, Associate Vice President of Facilities Planning at UVU, was involved in coordinating the cleanup and removal of materials from the site, as well as coordinating the paving operation at the site of the shooting. As described in Exhibit G, Mr. Young searched for responsive records within a reasonable timeframe tied to the period when that work occurred and also sought responsive records from other UVU personnel directly involved in that work. That search produced responsive records, which have been provided with appropriate redactions.

To the extent UVU determined that certain categories of requested records were not maintained by UVU, UVU informed Petitioner accordingly and, where known, directed

Petitioner to the Division of Facilities and Construction Management (DFCM), which may maintain those records, consistent with Utah Code Ann. § 63G-2-204(4)(b)(iii).

Mr. Peterson's appeal response stated that there was a UVU Police Report that was responsive to this request as it mentioned the collection of evidence, however, a closer review of the report during this appeal shows that it is in fact not responsive to the request as it does not discuss destruction and/or removal of evidence and/or materials from the shooting site.

Even if there were a police report or other police records related to the removal or destruction of evidence that would be responsive to this request, such records would be protected from release under Utah Code Ann. §§ 63G-2-305(10)(a)-(c). Section 305(10)(a)-(c) protects records created or maintained for "civil, criminal, or administrative enforcement purposes" if the record's release could reasonably be expected to interfere with investigations undertaken for enforcement purposes, enforcement proceedings, or would create a danger of depriving a person of a right to a fair trial or impartial hearing.

There is an ongoing criminal investigation and prosecution related to the September 10, 2025, Turning Point event on UVU's campus. Releasing records relating to evidence removal could reasonably be expected to interfere with those proceedings by revealing information that may be related to the investigation or other matters that could bear on trial fairness.

Regarding the portion of Mr. Marshall's request seeking, "estimates, invoices for the work, purchase orders, and all related records" relating to the paving of the site, Ms. Fowler was informed by Mr. Young that UVU did not pay for the work completed, so there were no estimates, invoices, or purchase orders to provide.

Petitioner's assertion that additional emails, text messages, estimates, invoices, purchase orders, or other records "should" exist is not sufficient to show that UVU's search was

unreasonable. The relevant question is whether UVU used methods reasonably calculated to locate responsive records in the places where such records were reasonably likely to be found. The declarations and production of records establish that it did. Petitioner has not shown, by a preponderance of the evidence, that UVU's search efforts were unreasonable.

UVU has shown that it has conducted a reasonable search for records by reaching out to the relevant departments to determine whether those departments had responsive records. As discussed above, a search for records was conducted and responsive records have been provided to Mr. Marshall. In an appeal case where a governmental entity has shown it has conducted a reasonable search by a preponderance of the evidence, "the burden of proof shifts to the petitioner who must show by a preponderance of the evidence that the search efforts were not reasonable." Utah Administrative Rule R35-1-3(1)(b). Mr. Marshall's conjectures that a search was not reasonable, or that records still exist, is not enough. He has not met his burden in this case.

CONCLUSION

For the reasons discussed above, the Director should deny Petitioner's appeal.

Dated this 12th day of March 2026.

bmarshall@judicialwatch.org

Dear William Marshall,

Utah Valley University has received your Government Records Access and Management Act (GRAMA) request (25-326) on November 20, 2025, seeking:

1. "All records related to the destruction and/or removal of evidence and/or materials from the site of the assassination of Charlie Kirk on September 10, 2025. Such records shall include but not be limited to UVU police/security personnel emails and text messages, reports, directives, contractor invoices and authorizations.
2. All records related to the paving operation that occurred at the site on the UVU campus of the Charlie Kirk assassination, including email and text communications among university officials about the work, emails and text messages between the university and contractors involved in the operation, estimates, invoices for the work, purchase orders, and all related records."

The University is currently managing a high volume of record requests, constituting an "extraordinary circumstance" under Utah Code § 63G-2-204(6)(d) and § 63G-2-204(4)(b)(iv). Accordingly, if you requested an expedited response your request is denied.

Given the extraordinary circumstances identified above, we cannot immediately approve or deny or request. Utah Code § 63G-2-204(4)(b)(iv). We estimate that we will be able to provide a response to your request within fifteen (15) business days or less from the date after we received your request. Within fifteen (15) business days or less from the date we received your request, you will receive one of the following:

1. Approval of the request and a copy of the record(s).
2. Denial of the request.
3. Notification that UVU does not maintain the record(s) requested.
4. Notification that because of extraordinary circumstances, UVU cannot immediately approve or deny your request.

Utah Valley University retains the right to charge a reasonable fee to cover the cost of providing a record.

Sincerely,

Utah Valley University
Records Officers

December 15, 2025

William Marshall
Judicial Watch, Inc.
Judicial Watch 425 3rd Street, SW, 800
WASHINGTON, DC 20024
bmarshall@judicialwatch.org

Dear William Marshall,

This notice responds to your Utah Government Records Access and Management Act (GRAMA) request dated November 20, 2025, seeking:

1. All records related to the destruction and/or removal of evidence and/or materials from the site of the assassination of Charlie Kirk on September 10, 2025. Such records shall include but not be limited to UVU police/security personnel emails and text messages, reports, directives, contractor invoices and authorizations.
2. All records related to the paving operation that occurred at the site on the UVU campus of the Charlie Kirk assassination, including email and text communications among university officials about the work, emails and text messages between the university and contractors involved in the operation, estimates, invoices for the work, purchase orders, and all related records.

To the extent that your request seeks "All records related to the destruction and/or removal of evidence and/or materials from the site of the assassination of Charlie Kirk on September 10, 2025.":

Utah Code Annotated § 63G-2-204(1)(a)(ii) Requires that a GRAMA request identify the records sought with reasonable specificity. GRAMA does not require a governmental entity to search for records if the search is unreasonable in scope or intensity or unreasonably burdensome for the governmental entity. Id. § 63G-2-201(7)(b) & 63G-2-103(24). Your request for records relating to the removal of "evidence/materials" is too broad and does not identify with reasonable specificity what is meant by "evidence" or "materials," which departments/areas to search, key terms to guide the search, or provide a relevant time frame in which to search for responsive records. It is also unclear what constitutes "evidence/materials". Therefore, this portion of your request is denied. Even if it were clear what you mean by evidence, this portion of your request would still be denied as Utah Code Ann. § 63G-2-305(10) provides that records created or maintained for civil, criminal, or administrative enforcement purposes are protected if their release could reasonably be expected to interfere with investigations or enforcement proceedings, or create a danger of depriving a person of a fair trial or proceeding.

To the extent that your request seeks "All records related to the paving operation that occurred at the site on the UVU campus of the Charlie Kirk assassination, including email and text communications among university officials about the work, emails and text messages between the university and contractors involved in the operation,":

Utah Code Annotated § 63G-2-204(1)(a)(ii) Requires that a GRAMA request identify the records sought with reasonable specificity. GRAMA does not require a governmental entity to search for records if the search is unreasonable in scope or intensity or unreasonably burdensome for the governmental entity. Id. § 63G-2-201(7)(b) & 63G-2-103(24). Your request for "all records" is too broad and does not identify with reasonable specificity the type of records sought beyond emails and text messages. While you do mention emails and text messages as part of your request, it is not clear what you mean by "University Officials," your request does not include key terms or a relevant time frame in which to search for responsive records. Therefore, this portion of your request is denied.

To the extent the second portion of your request seeks estimates, invoices, and purchase orders related to the paving operation at the site of event, Utah Valley University has conducted a reasonable search and found no records responsive to your request.

Please note that some of the records you requested may be maintained by the Division of Facilities Construction and Management (DFCM). In accordance with Utah Code § 63G-2-204(4)(b)(iii), we direct you contact DFCM:

Division of Facilities and Construction Management (DFCM)
4315 S. 2700 West
Taylorsville, UT 84129
<https://dfcm.utah.gov/contact-us/>

You have the right to appeal this determination to the Chief Administrative Officer of Utah Valley University. A written appeal must be filed within 30 days after the date of this notice and should include your name, address, phone number, and a brief statement of the reasons for the appeal.

Mail:
Utah Valley University
VP Val Peterson

Dear Sir,

I respectfully appeal the determination made with respect to my GRAMA request for records, as described in the determination email below.

My request for records with respect to both records related to the removal of materials from the site of the assassination of Charlie Kirk and to the subsequent paving operation were sufficiently and reasonably described as to be manageable. Please conduct the search as requested and provide responsive records forthwith.

Thank you.

William Marshall
Judicial Watch, Inc.
Judicial Watch 425 3rd Street, SW, 800
WASHINGTON, DC 20024
bmarshall@judicialwatch.org

Dear William Marshall,

This notice responds to your Utah Government Records Access and Management Act (GRAMA) request dated November 20, 2025, seeking:

1. All records related to the destruction and/or removal of evidence and/or materials from the site of the assassination of Charlie Kirk on September 10, 2025. Such records shall include but not be limited to UVU police/security personnel emails and text messages, reports, directives, contractor invoices and authorizations.
2. All records related to the paving operation that occurred at the site on the UVU campus of the Charlie Kirk assassination, including email and text communications among university officials about the work, emails and text messages between the university and contractors involved in the operation, estimates, invoices for the work, purchase orders, and all related records.

To the extent that your request seeks "All records related to the destruction and/or removal of evidence and/or materials from the site of the assassination of Charlie Kirk on September 10, 2025.":

Utah Code Annotated § 63G-2-204(1)(a)(ii) Requires that a GRAMA request identify the records sought with reasonable specificity. GRAMA does not require a governmental entity to search for records if the search is unreasonable in scope or intensity or unreasonably burdensome for the governmental entity. Id. § 63G-2-201(7)(b) & 63G-2-103(24). Your request for records relating to the removal of “evidence/materials” is too broad and does not identify with reasonable specificity what is meant by "evidence" or "materials," which departments/areas to search, key terms to guide the search, or provide a relevant time frame in which to search for responsive records. It is also unclear what constitutes “evidence/materials”. Therefore, this portion of your request is denied. Even if it were clear what you mean by evidence, this portion of your request would still be denied as Utah Code Ann. § 63G-2-305(10) provides that records created or maintained for civil, criminal, or administrative enforcement purposes are protected if their release could reasonably be expected to interfere with investigations or enforcement proceedings, or create a danger of depriving a person of a fair trial or proceeding.

To the extent that your request seeks “All records related to the paving operation that occurred at the site on the UVU campus of the Charlie Kirk assassination, including email and text communications among university officials about the work, emails and text messages between the university and contractors involved in the operation,”: Utah Code Annotated § 63G-2-204(1)(a)(ii) Requires that a GRAMA request identify the records sought with reasonable specificity. GRAMA does not require a governmental entity to search for records if the search is unreasonable in scope or intensity or unreasonably burdensome for the governmental entity. Id. § 63G-2-201(7)(b) & 63G-2-103(24). Your request for “all records” is too broad and does not identify with reasonable specificity the type of records sought beyond emails and text messages. While you

do mention emails and text messages as part of your request, it is not clear what you mean by "University Officials," your request does not include key terms or a relevant time frame in which to search for responsive records. Therefore, this portion of your request is denied.

To the extent the second portion of your request seeks estimates, invoices, and purchase orders related to the paving operation at the site of event, Utah Valley University has conducted a reasonable search and found no records responsive to your request.

Please note that some of the records you requested may be maintained by the Division of Facilities Construction and Management (DFCM). In accordance with Utah Code § 63G-2-204(4)(b)(iii), we direct you contact DFCM:

Division of Facilities and Construction Management (DFCM)
4315 S. 2700 West
Taylorsville, UT 84129
<https://dfcm.utah.gov/contact-us/>

You have the right to appeal this determination to the Chief Administrative Officer of Utah Valley University. A written appeal must be filed within 30 days after the date of this notice and should include your name, address, phone number, and a brief statement of the reasons for the appeal.

To: 'BMarshall@judicialwatch.org'
Cc: Clark Collings
Subject: GRAMA Request Appeal 25-326
Attachments: 25-326.pdf

January 8, 2026

William F. Marshall
Senior Investigator
Judicial Watch
BMarshall@judicialwatch.org

Dear Mr. Marshall,

I am in receipt of your GRAMA request appeal dated December 16, 2025, regarding GRAMA Request 25-326. In your GRAMA request, you requested:

1. All records related to the destruction and/or removal of evidence and/or materials from the site of the assassination of Charlie Kirk on September 10, 2025. Such records shall include but not be limited to UVU police/security personnel emails and text messages, reports, directives, contractor invoices and authorizations.
2. All records related to the paving operation that occurred at the site on the UVU campus of the Charlie Kirk assassination, including email and text communications among university officials about the work, emails and text messages between the university and contractors involved in the operation, estimates, invoices for the work, purchase orders, and all related records.

In response to your GRAMA request, the Records Officer stated that your requests were not reasonably specific as required under GRAMA to conduct a search, as it was not clear what you meant by “evidence,” or “materials,” did not provide departments, areas to search, key terms, or timeframes for the searches. In your appeal, you state that your request is reasonably described to be manageable. Under GRAMA, a governmental entity is required to conduct a "reasonable search" for records. This is defined as a search that is reasonable in both scope and intensity and not unreasonably burdensome for the entity. See Utah Code Ann. § 63G-2-103(24).

Applying the common meaning to the words “evidence” and “materials,” we have been able to search for records related to your requests from the areas of the university reasonably likely to have responsive records.

In response Request 1, to the extent that your request seeks records related to the destruction of evidence from the site of the assassination of Charlie Kirk on September 10, 2025, there are no responsive records.

To the extent that your request seeks records related to the removal of evidence, there is a police report that would be responsive to your request relating to the collection of evidence. However, access to that report is denied as a record classified as protected under Utah Code Ann. § 63G-2-305(10)(a)-(c), as a record that, if released, could reasonably be expected to interfere with investigations, enforcement proceedings, or deprive a person of a fair trial. There is an ongoing criminal investigation and prosecution related to the shooting of Charlie Kirk on UVU

campus on September 10, 2025. Releasing the requested record could reasonably be expected to interfere with those investigations and proceedings and potentially deprive a person of a right to a fair trial or impartial hearing.

To the extent that Request 1 seeks records related to the destruction or removal of materials from the site of the assassination of Charlie Kirk on September 10, 2025, please see the attached records responsive to your request.

In response to Request 2, please see the attached records that have been identified as responsive to your request for “All records related to the paving operation that occurred at the site on the UVU campus of the Charlie Kirk assassination, including email and text communications among university officials about the work, emails and text messages between the university and contractors involved in the operation, estimates, invoices for the work, purchase orders, and all related records.”

Please note that some information in the records has been classified as protected pursuant to Utah Code Ann. § 63G-2-305(11) “records the disclosure of which would jeopardize the life or safety of an individual,” and private pursuant to Utah Code Ann. § 63G-2-302(2)(d). Pursuant to Utah Code 63G-2-308(2), we have redacted information in these categories within these records. The redacted portion of the record(s) include a citation to the provision of GRAMA and/or other law that classifies that portion of the record.

You have the right to appeal this decision to the director of the Government Records Office or district court. Please refer to Utah Code Ann. §§ 63-2-401 to -404 for your appeal rights. You have thirty (30) calendar days to appeal this decision after the date this decision was issued.

You also have the right under Utah Code Ann. § 63A-12-204 to request the government records ombudsman mediate this dispute. If you seek mediation under § 63A-12-204, your time limit to file a notice of appeal to the State Records Committee or to district court is suspended from the date you submit a request to the records ombudsman to mediate the dispute and ends the earlier of the date the government records ombudsman certifies in writing the mediation is concluded, or the date that the government records ombudsman certifies in writing that the mediation did not occur or was not concluded because of lack of required consent. See Utah Code Ann. § 63G-2-403(1)(c) and § 63G-2-404(1)(b).

If you elect to appeal this decision to the director of the Government Records Office, please mail your appeal to the following address:

Lonny Pehrson
Director, Government Records Office
346 S. Rio Grande
Salt Lake City, UT 84101-1106

v.

UTAH VALLEY UNIVERSITY,

Respondent .

**DECLARATION OF STACY FOWLER IN
SUPPORT OF UTAH VALLEY
UNIVERSITY’S STATEMENT OF FACTS,
REASONS, AND LEGAL AUTHORITY**

Case No. 2026-004

I, Stacy Fowler, being duly sworn, hereby state under oath as follows:

1. I am an Executive Assistant at Utah Valley University (“UVU”) and have been employed by UVU in various roles for over 25 years.
2. I am a certified GRAMA records officer for UVU and have been assisting in gathering records for GRAMA requests related to the September 10, 2025, shooting of Charlie Kirk.
3. I am familiar with GRAMA Request 25-326, which requests: (1) All records related to the destruction and/or removal of evidence and/or materials from the site of the assassination of Charlie Kirk on September 10, 2025. Such records shall include but not be

limited to UVU police/security personnel emails and text messages, reports, directives, contractor invoices and authorizations; and (2) All records related to the paving operation that occurred at the site on the UVU campus of the Charlie Kirk assassination, including email and text communications among university officials about the work, emails and text messages between the university and contractors involved in the operation, estimates, invoices for the work, purchase orders, and all related records.

4. In response to this request, I reached out to the UVU Police Department's administrative assistant, who is also a records officer, and asked her whether the police would have any records responsive records to this request. She told me that the UVUPD did not have control of the handling of the crime scene and were not involved in the removal of the evidence or material from the site, so they would not have any responsive records.

5. I also reached out to Frank Young, the Associate Vice President of Facilities Planning, as I was aware from my time assisting in responding to GRAMA requests that he was the UVU official involved with the paver installation at the site as well as site cleanup. Mr. Young provided responsive records and mentioned that UVU should receive an invoice related to the clean up/removal of material from the shooting site once it was received from the vendor that was hired. Mr. Young informed me UVU did not pay for or install the pavers at the site of the shooting, and there are no estimates, invoices, or purchase orders related to the work.

6. This GRAMA request was also reviewed with other UVU records officers to coordinate if there were any other related records.

7. At the time this request was made, UVU's Procurement office also informed me they did not have any invoice records relating to the cleanup from the site.

8. UVU has since received, and I have since collected the purchase and invoice records related to the site cleanup/removal of materials from UVU's procurement office, which are responsive to this request.

9. I declare under criminal penalty under the law of Utah that the foregoing is true and correct.

Signed on the 5th day of March, 2026 in Orem, Utah.

BILL MARSHALL,

Petitioner,

v.

UTAH VALLEY UNIVERSITY,

Respondent .

**DECLARATION OF FRANK YOUNG IN
SUPPORT OF UTAH VALLEY
UNIVERSITY'S STATEMENT OF FACTS,
REASONS, AND LEGAL AUTHORITY**

Case No. 2026-004

I, Frank Young, being duly sworn, hereby state under oath as follows:

1. I have been the Associate Vice President of Facilities Planning at Utah Valley University ("UVU") since 2014.
2. After the shooting of Charlie Kirk on September 10, 2025, the site where Mr. Kirk was shot was under the control of external law enforcement agencies for collection of evidence.
3. On or about Friday, September 12, 2025, the scene was released back to UVU.
4. I am the UVU official that helped coordinate the cleaning and paving of the site after it was released back to UVU control.

5. Workers began installing pavers at the site after it was returned to UVU control. The work was completed by Tuesday, September 16, 2025.

6. UVU does not have estimates, invoices, or purchase orders for the paver installation project because the work was not paid for or performed by UVU.

7. I am familiar with GRAMA Request 25-326, which requests: (1) All records related to the destruction and/or removal of evidence and/or materials from the site of the assassination of Charlie Kirk on September 10, 2025. Such records shall include but not be limited to UVU police/security personnel emails and text messages, reports, directives, contractor invoices and authorizations; and (2) All records related to the paving operation that occurred at the site on the UVU campus of the Charlie Kirk assassination, including email and text communications among university officials about the work, emails and text messages between the university and contractors involved in the operation, estimates, invoices for the work, purchase orders, and all related records.

8. I have searched for records that would have been responsive to this request by checking my email and text messages for documents related to the installation of the pavers. I searched from the date of September 10, 2025, until November 1, 2025, which is over thirty days after the cleanup/material removal and the paver installation work were completed. I searched for the terms "pavers."

9. I also searched for messages to and from specific individuals that I knew I had worked with regarding the paver installation and the cleanup/removal of materials from the site during that time frame to find responsive records.

10. I did not find any responsive emails. I did find responsive text messages and have provided copies of those records.

11. I also asked a UVU employee that helped with clean up to reach out to his team to see if they had any additional records related to the removal of materials. Those responsive records have been provided.

12. A cleanup crew was hired to clean the scene after it had been released back to UVU custody. I searched for records related to the cleanup and found a responsive text message in which I asked for an invoice regarding the work. A copy of this text was provided. The invoice and other related documents were provided by the vendor at a later date.

13. I declare under criminal penalty under the law of Utah that the foregoing is true and correct.

Signed on the 5th day of , 2026 in Orem, Utah.

A handwritten signature in black ink, appearing to read "Frank Young", with a stylized flourish at the end.

Frank Young
Associate Vice President of Facilities Planning,
Utah Valley University

Ok. There's a couple small spots east of the ticket booth at the Event Center that did not take. It will be very obvious if they go take a look. It was too hot when we laid it. This go around it will be great timing.

The sod will easily lift up and the new pieces can easily be put back in place.

Sounds good. We'll get it over there and installed

Thank you!

After we do that, are we okay to remove the remaining sod?

Yes

We won't trash it so if UVU needs it in the future we'll have it

Sod is pretty cheap

Pavers or concrete for the courtyard?

For a redesign? Or what exactly are you referring to?

Yes. They want to do something tomorrow. Contractors are cleaning their tools.

I like concrete for ease of maintenance and snow for removal. Could do stamped concrete in some areas to get a good feel.

Where are we thinking the work will begin for tomorrow.

Was this part of the big plan like you and U6 were asking? Or a quick change or improvement ?

On the new sod.

On the new sod.

Pavers above the pump
station.

That sounds good. If the area
is to remain open in winter, I
suggest concrete to help with
maintenance.

I'll turn water off in the area.

The cops just called me into the fountain. Area to get them some water. We're not gonna need to cut out any sod. I don't think i bet we can just wash it all down

Ok great news

Let me know and I'll pass it along

Well, they're done now. And there is still some stuff to cleanup
But I think we can get it cleaned pretty easy.

Stuff as in blood ?

There's still A
Eight inch puddle ish

Pluggger

Hell no

You trying to splash stuff

The solution to pollution is dilution

Yea true. Just up the irrigation

I'll just grab a hose and spray it,
man

Tonight?

No, tomorrow.
The FBI is still there. I guess.

Sat, Sep 13 at 18:28

We'd like to start with a 20 x 60 paver pad in our courtyard. Are you coming down tomorrow?

I'm in route now. My guys are getting stuff together for the paver pad

Wow. I'm in a meeting. Do you want one of my staff to meet you?

Yes. Not sure where yet though

Lets say 8:00 at the site on the plaza

Ok should work

Perfect thank you 63G-2-305(11)!

Nice!

We want to fully fence off the top of the plaza as it begins to stair-step down correct?

Yes. The top edge.

Perfect

UU has some barriers available.....but they are bright red.

No thank you.

Any other color.

I know. I thought the same thing 😂

They made me change the paver color this morning.

We can get some of the

Hi [REDACTED] [REDACTED] with DFCM here. Just checking in to see if DFCM can provide UVU with any assistance with the ongoing situation. We're happy to send staff and resources if that would help the University during this time. Let me know and we'll be there.

Hi. Thanks [REDACTED] Let's hire a landscape architect to help us plan a facelift for the courtyard area where the event occurred.

We can certainly do that. We'll proceed right away on getting a firm under contract. Maybe we can get together on site early next week and discuss options and the desires of UVU?

Emergency Payment Request Form

University procurement policies and procedures were not followed when placing the procurement described below because it was an extreme emergency. University policy requires a purchase order to be created before orders are placed. It also requires that a bid be completed for orders over the bidding threshold. However, it is also recognized that, in some cases, it isn't possible. The individual who placed this order attests that it was the case and is requesting that the University make payment.

Once all required fields are entered, select "Add and go to Cart" from the action menu at the top of the form and click Go.

Order Information Instructions

- **Enter Vendor:** Enter the organization or individual to be paid. If it is not found, please contact Procurement & Contract Services (procurement@uvu.edu). Once the vendor has been created, you will be notified. You can then complete the Emergency Payment Form.
- **Date:** Enter the date the order was placed with the vendor.
- **Vendor Inv #:** Enter the vendor invoice number.
- **Invoice Date:** Enter the date of the invoice.
- **Invoice Amount:** Enter the amount on the invoice.
